Companies marked blue are constituent stocks of the Swiss Market Index SMI

## ABB – 240-Minute chart

ABB was turned down by the major resistance at 20 / 20.30.  
The downtrend is likely to resume with supports at 17.90 and 16.90 / 16.60.  
The sell level was just triggered at 18.70 at break-even.

# ALCON – 30-Minute chart

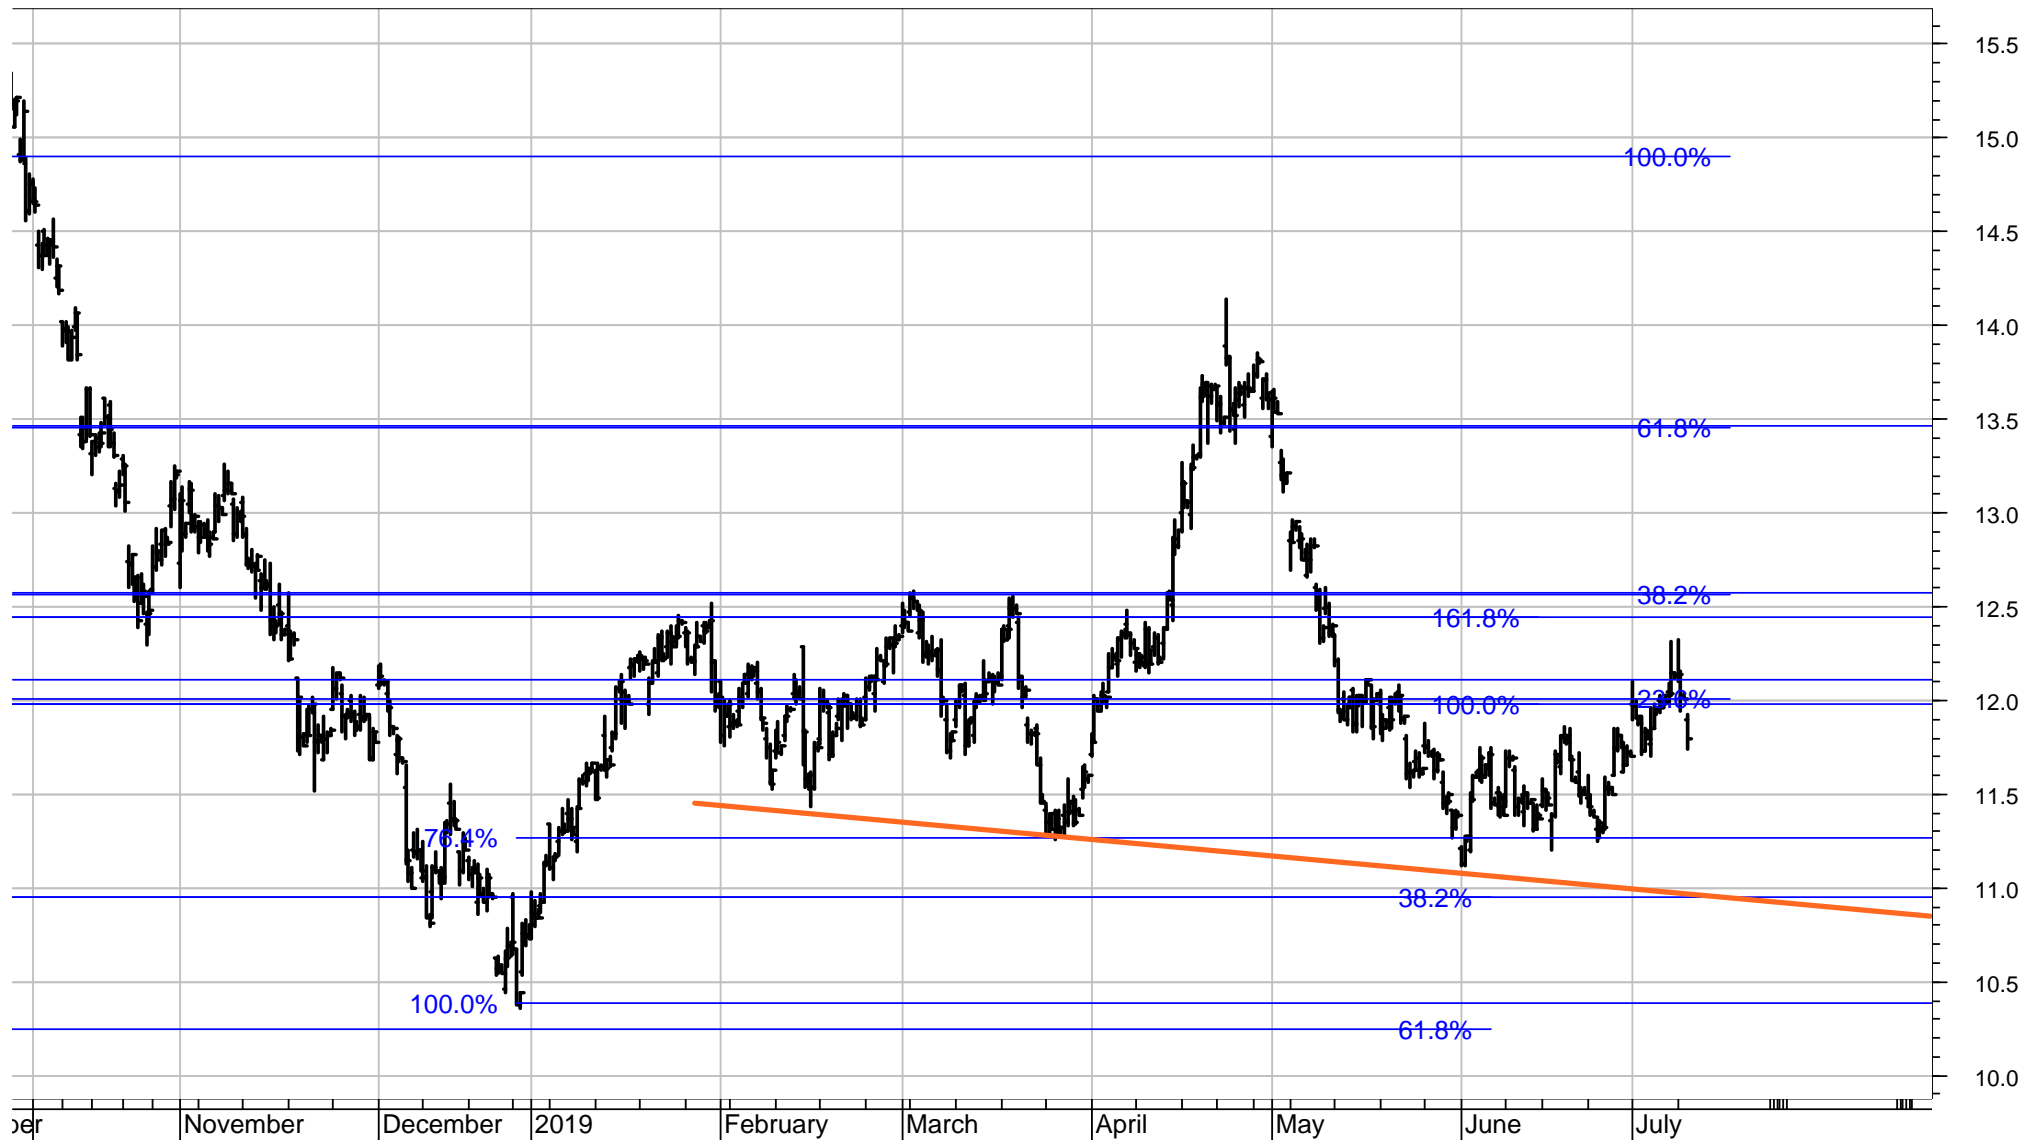

Alcon was capped by the resistance at 62 and turned down.  
Clearly, Alcon will trigger sell signals if the supports at 59.50, 58 and 55.50 are broken.

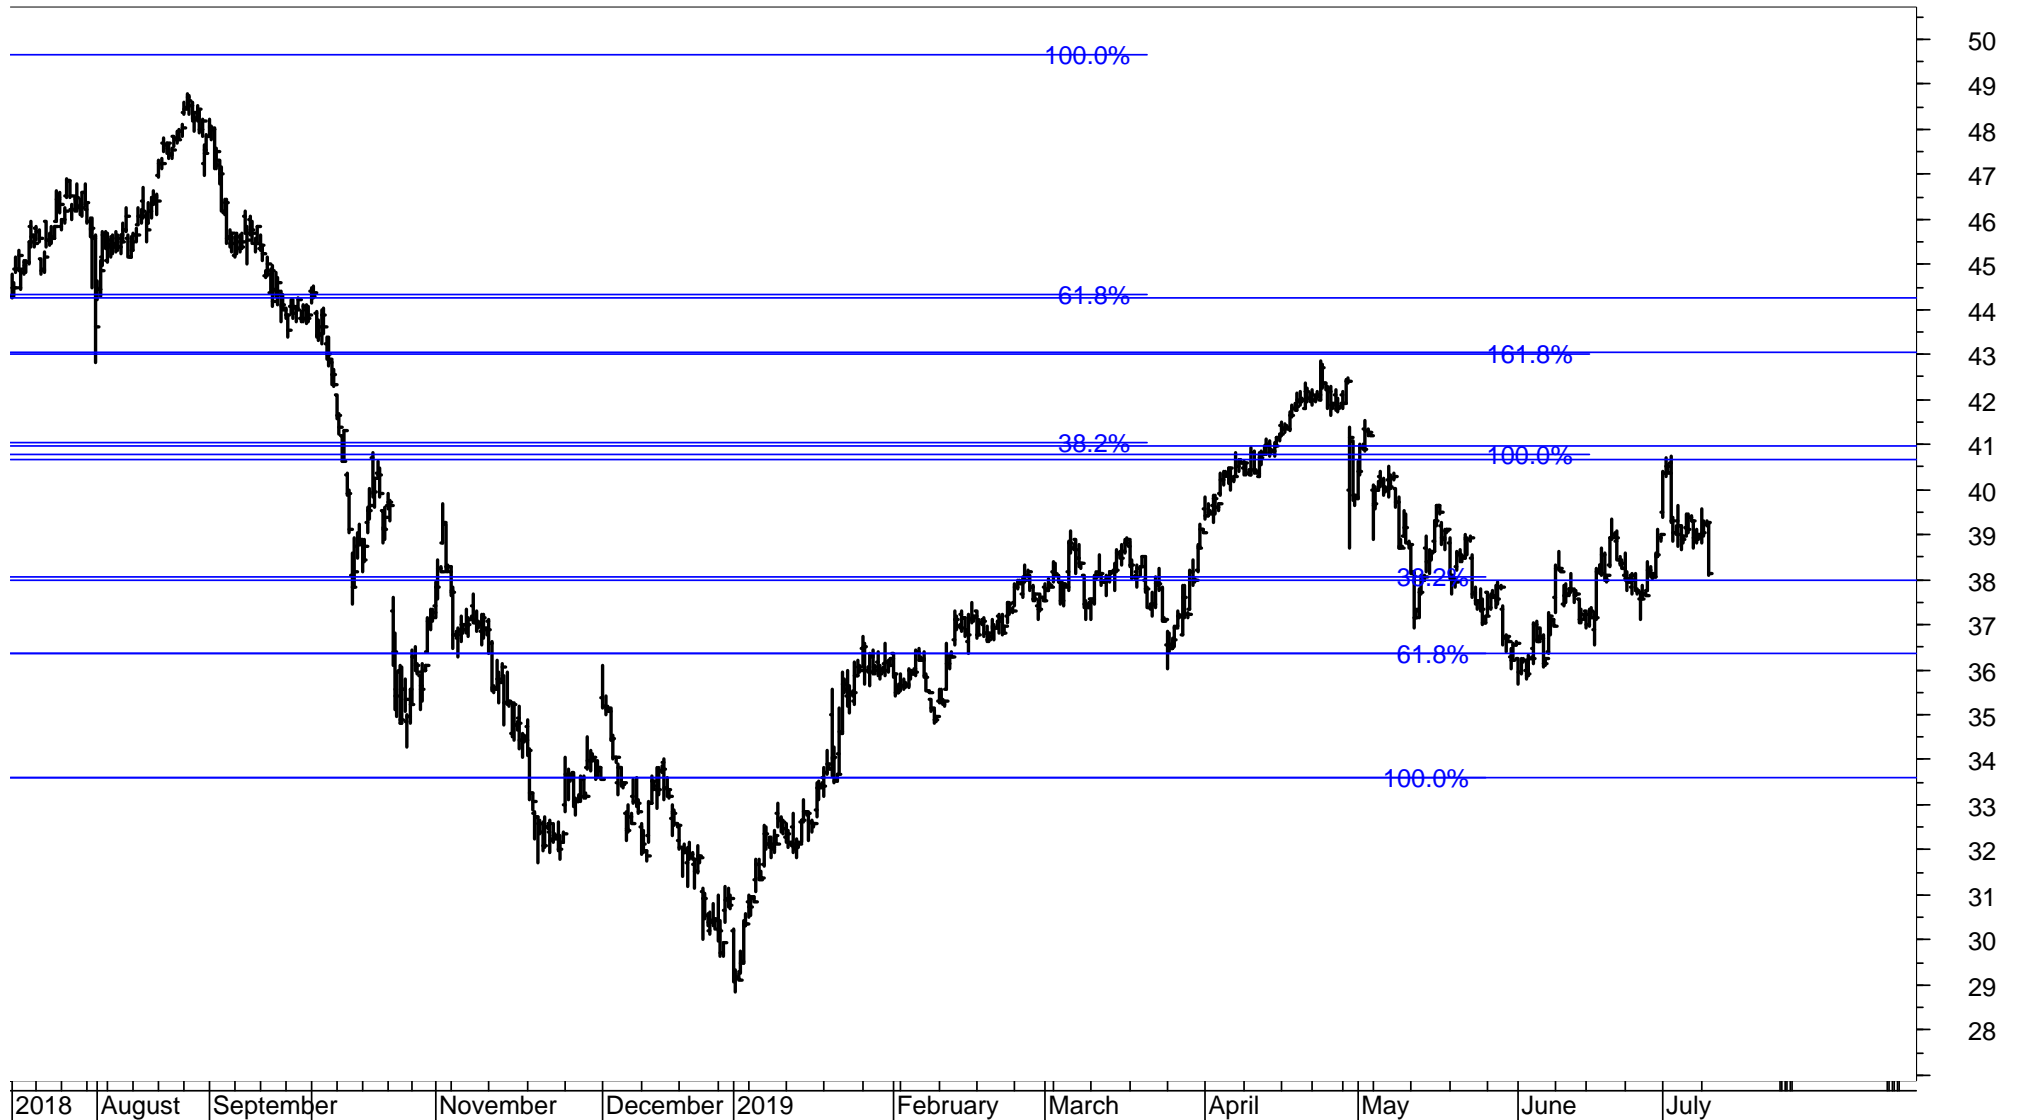

# CS GROUP – 240-Minute chart

Last week I stated: „Unless CSG breaks above 12.60 and 13.50 it will remain at risk of resuming the downtrend below 10.90 or 10.30, possibly falling to the secular support at 8.90.“  
This statement is still true.

# LOGITECH – 240-Minute chart

Logitech was capped by the major resistance at 41.  
I stated last week: “Next, it could well test the supports at 38, 36.30 or 33.50”.  
A break of 38 would trigger the next sell signals.

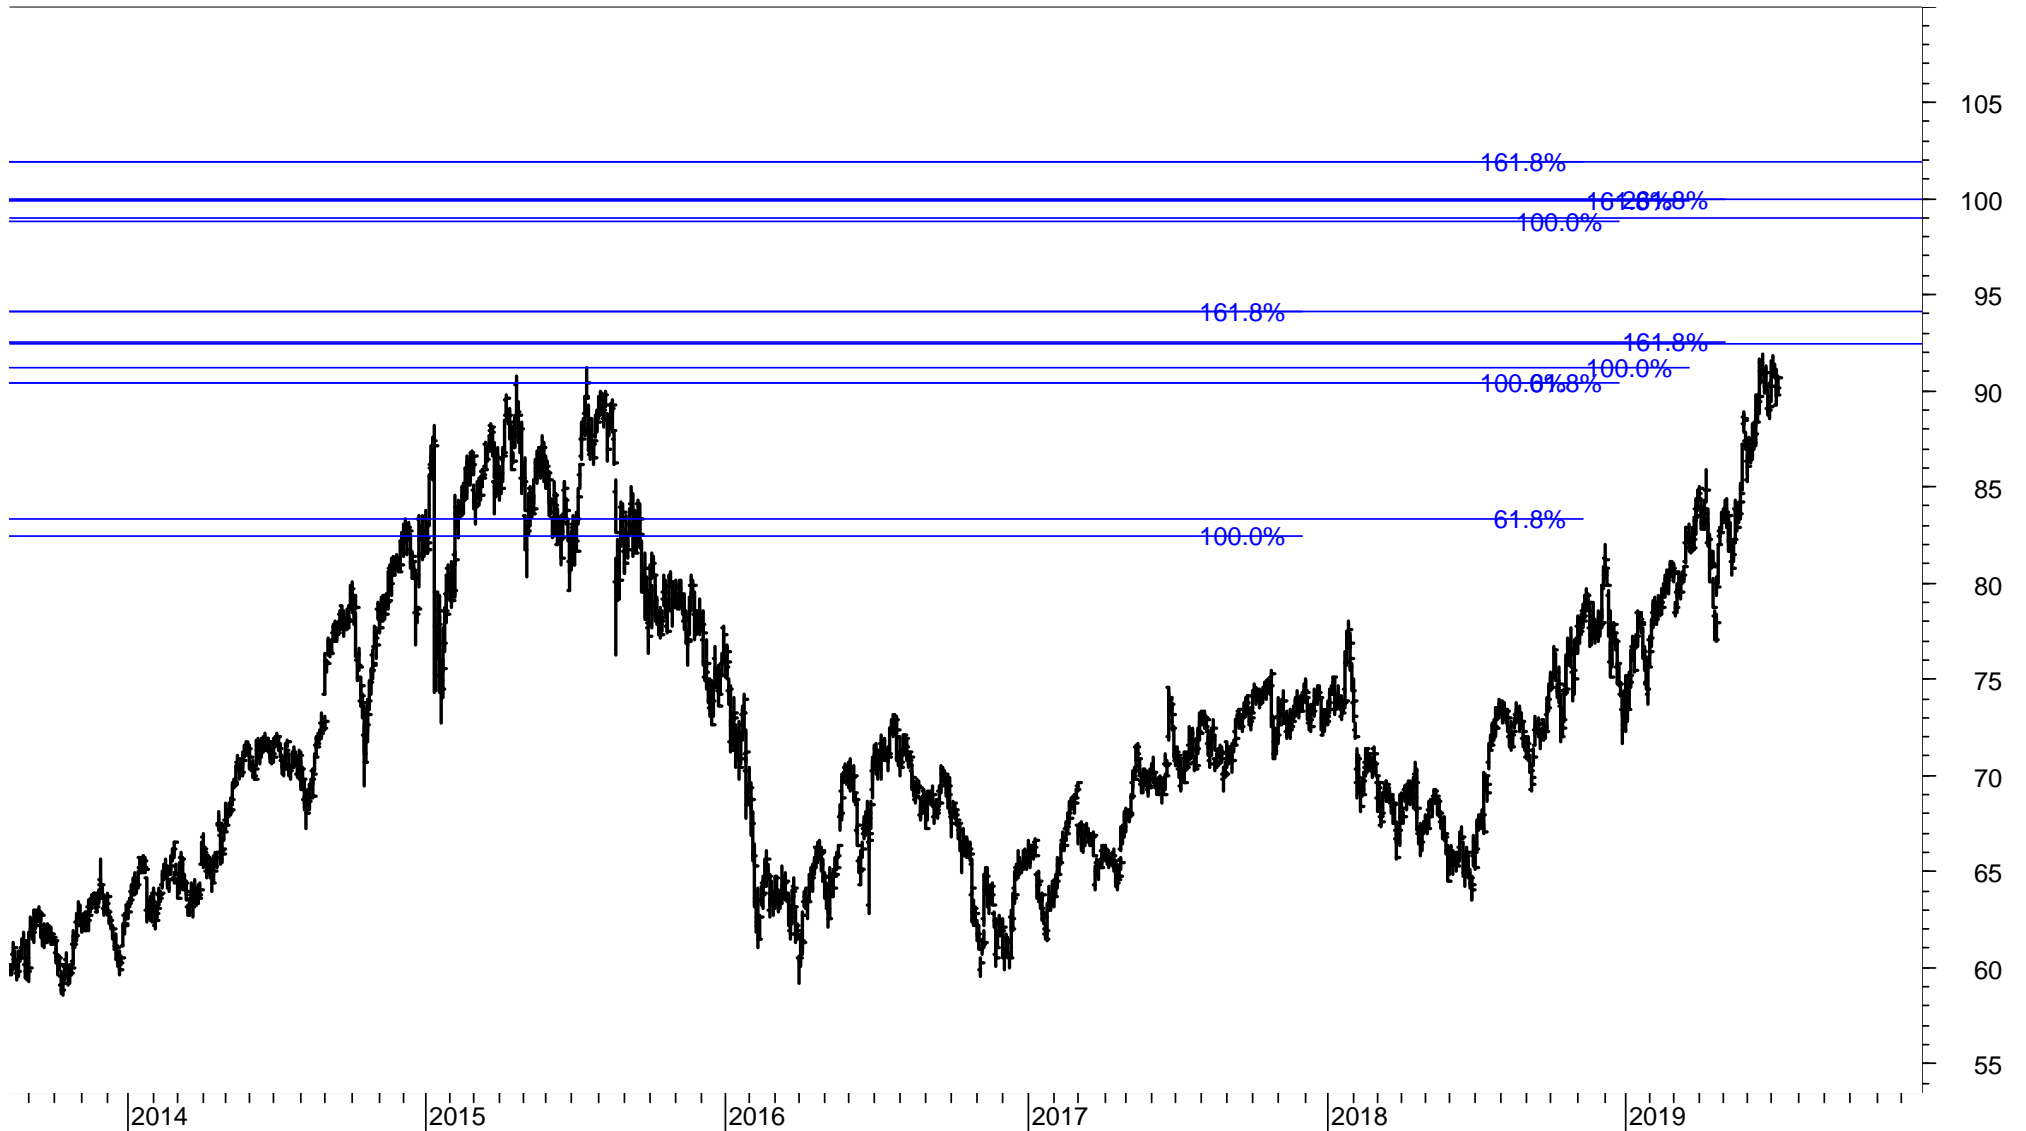

## NESTLE – 10-Minute chart

The most recent breakout above the June highs will signal a FAILURE if the present correction breaks 102 and 101.10. A break of these levels would signal that a medium-term correction is likely to have started. I would reduce long-term positions if these two supports fail to hold. A  $\frac{1}{3}$ <sup>rd</sup> retracement of the rise from December would provide support at 94.

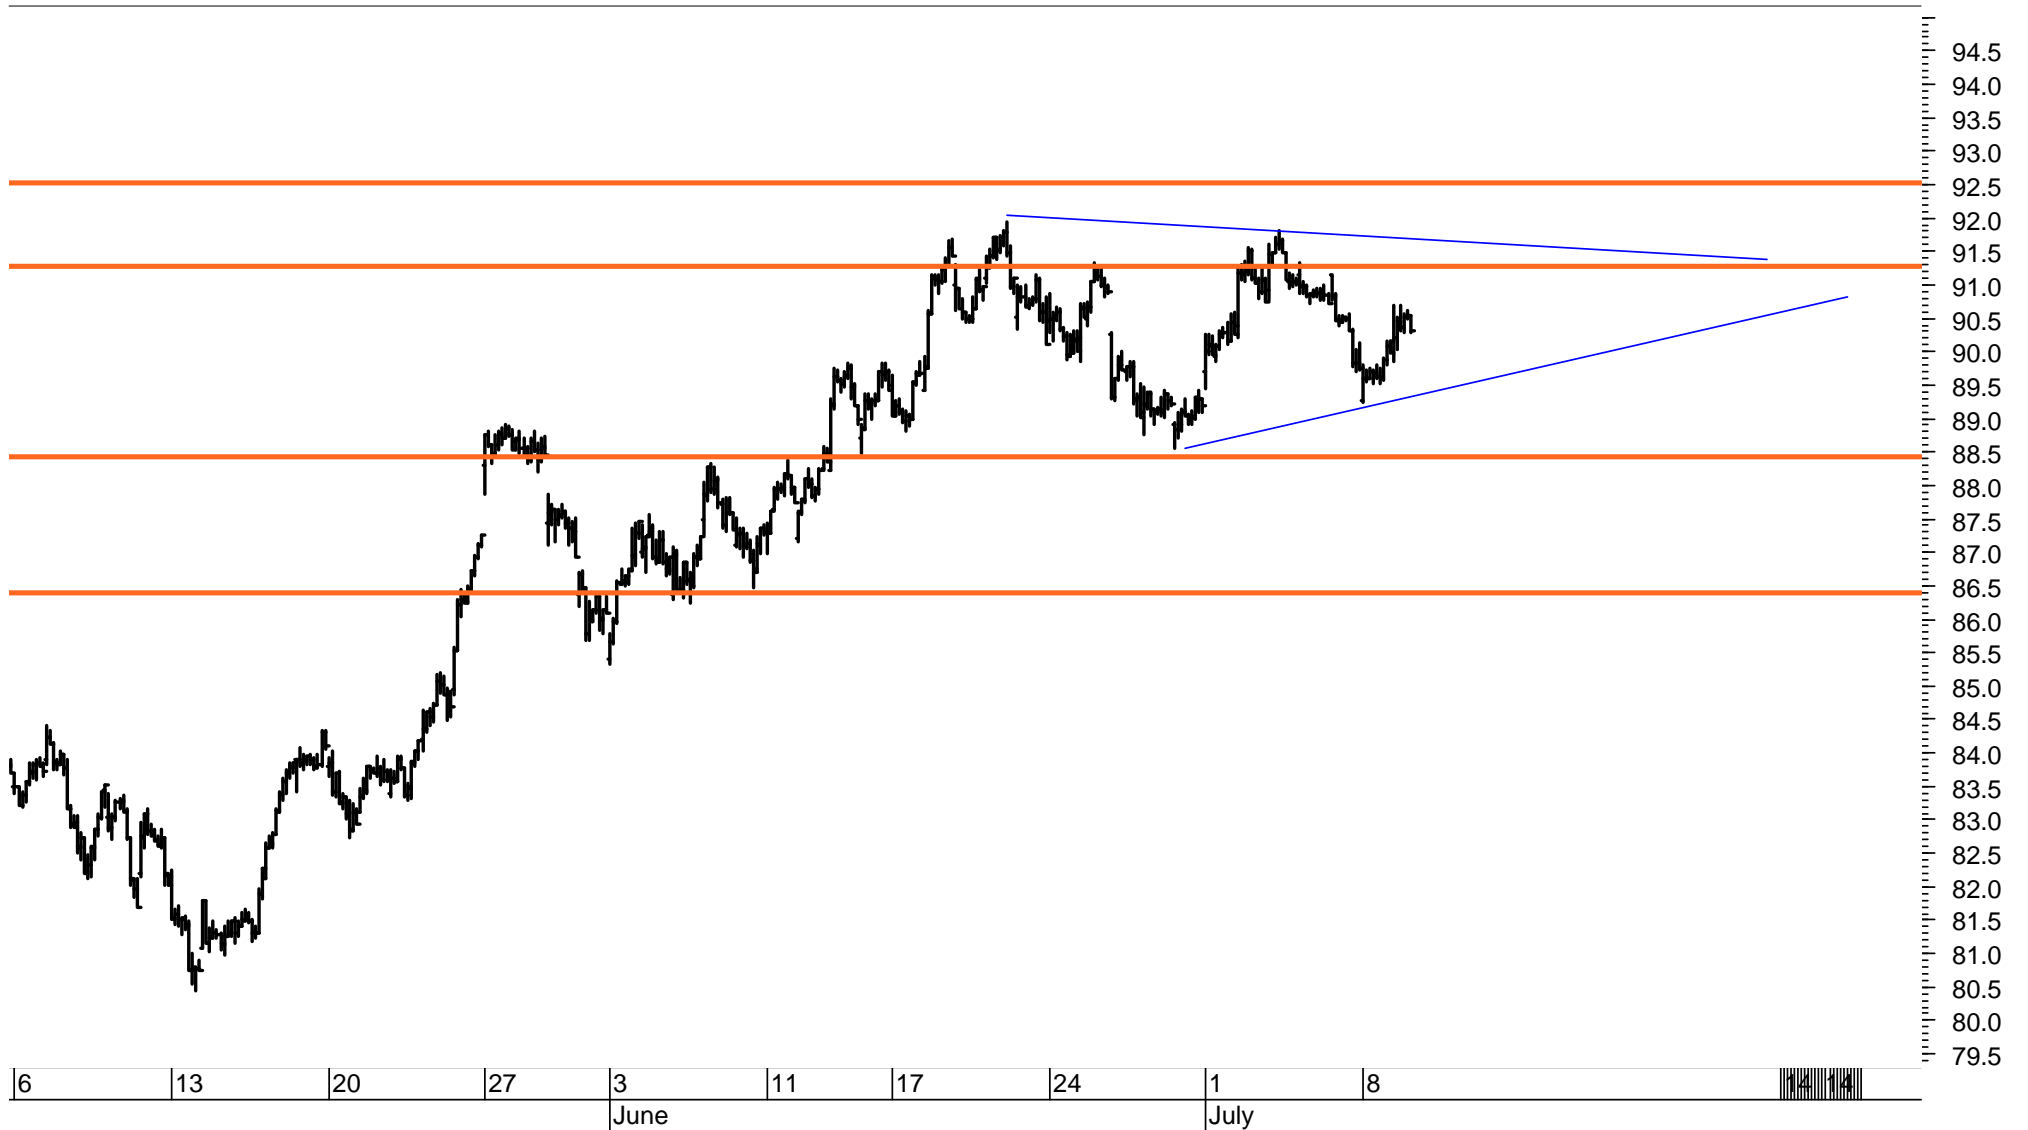

# NOVARTIS – daily chart

Novartis is close to long-term resistance at 92.50 / 94.  
It will take a break of this range to activate the next long-term resistance at 99 to 102, possibly even 113 / 115.  
The present short-term correction is highlighted on the next page.

# NOVARTIS – Hourly chart

Novartis has entered a trading range with key levels at 91.30 / 92.60 and 88.30 / 86.40.

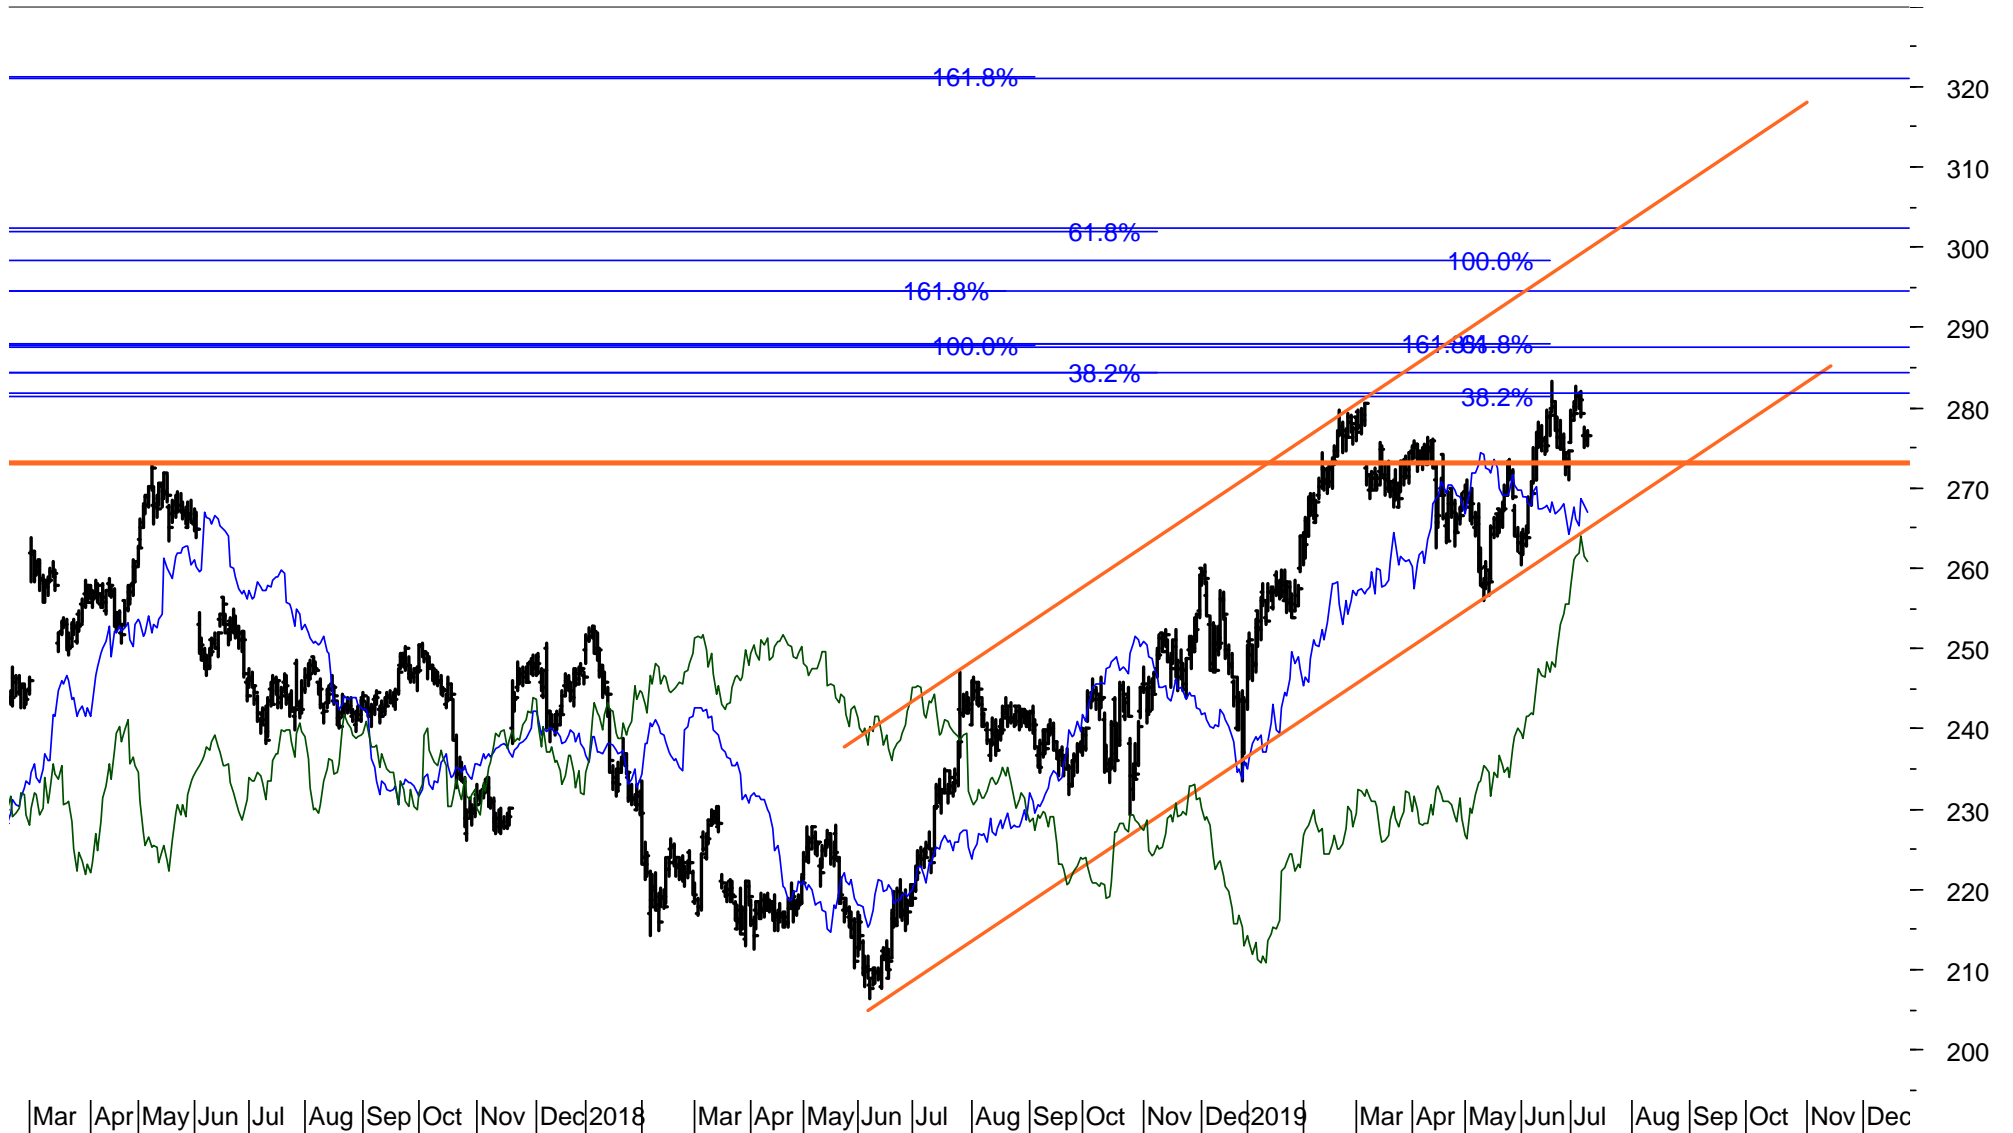

# ROCHE GS

Roche remains below the multiple-resistance cluster between 282 and 289.

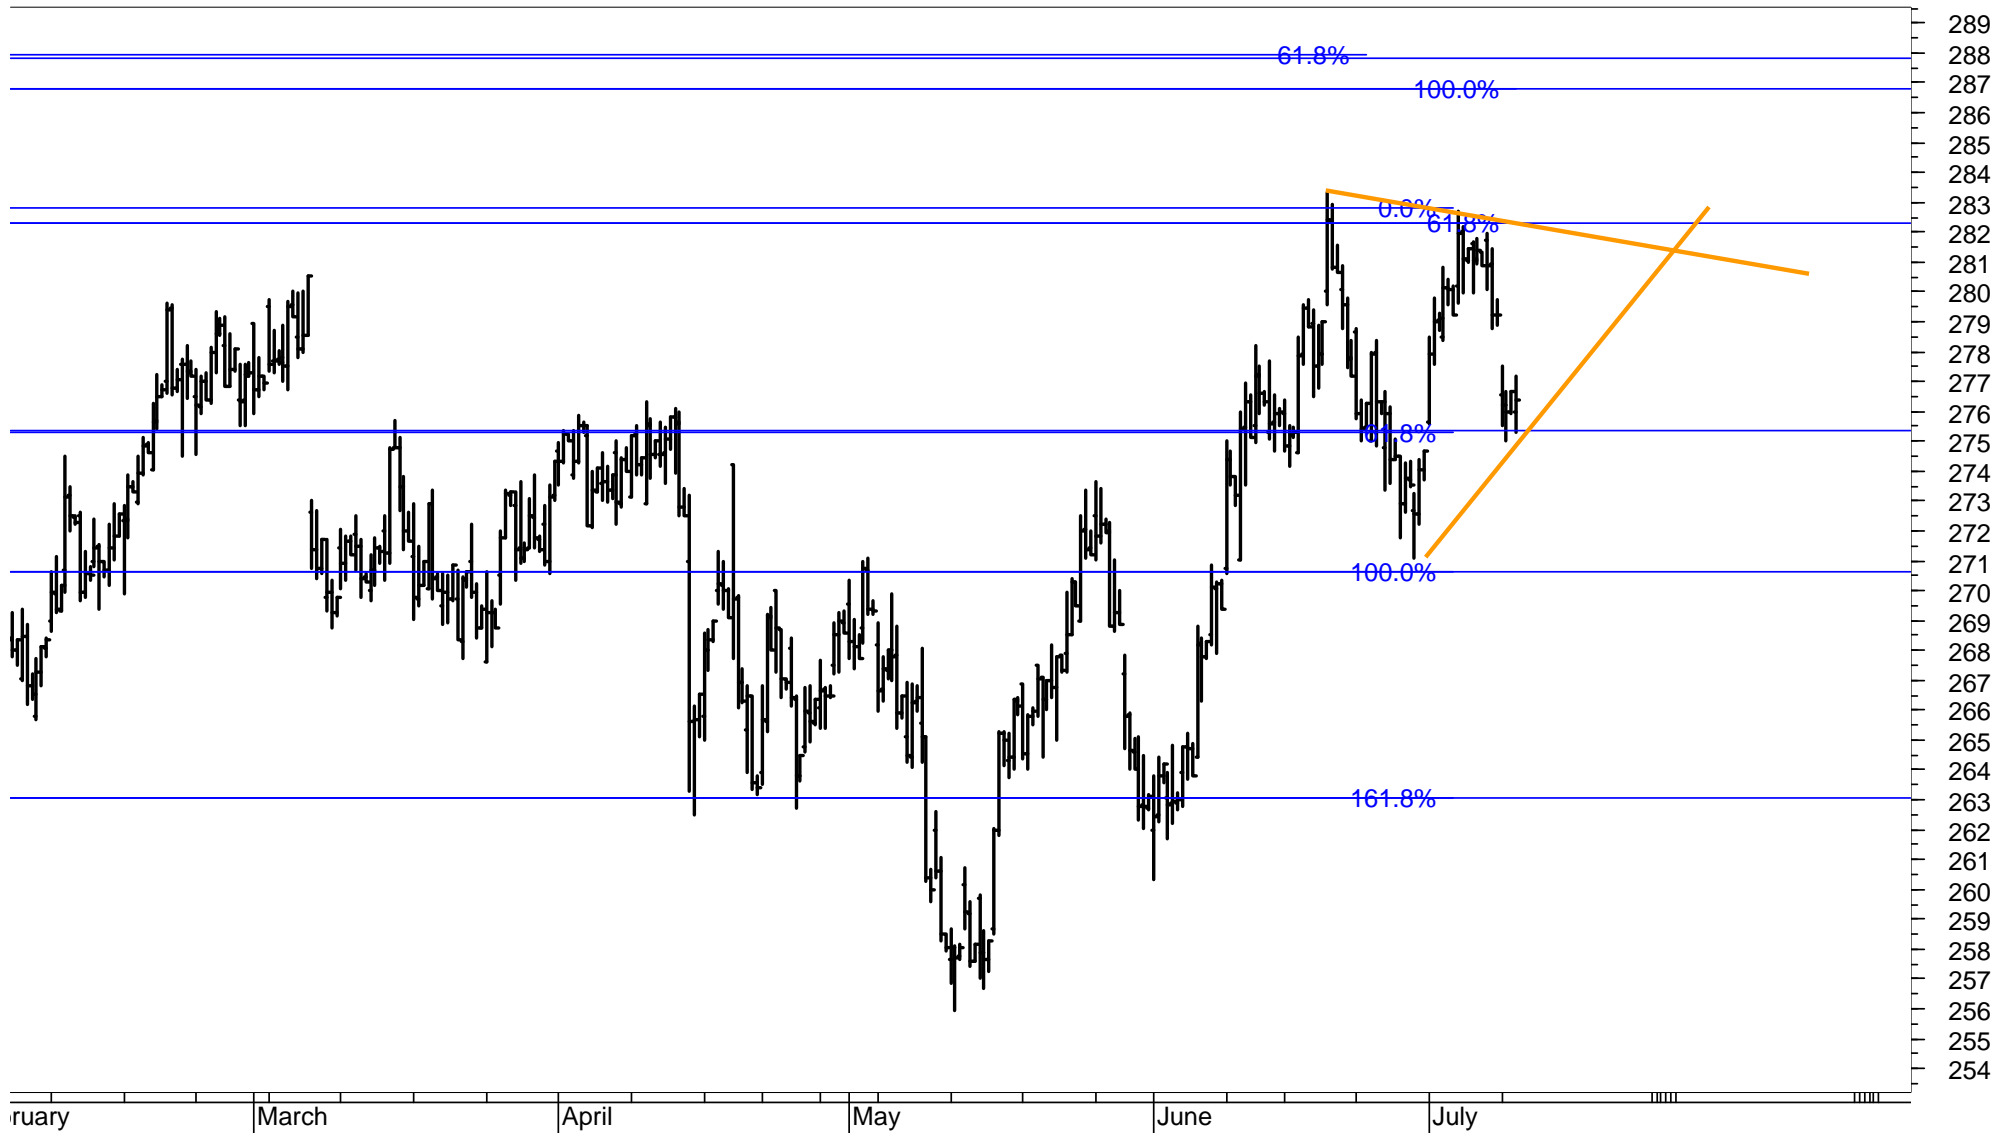

Next resistance is 294 / 303 and 320.

See the chart on the next page for the support and resistance of the present consolidation.

# ROCHE GS

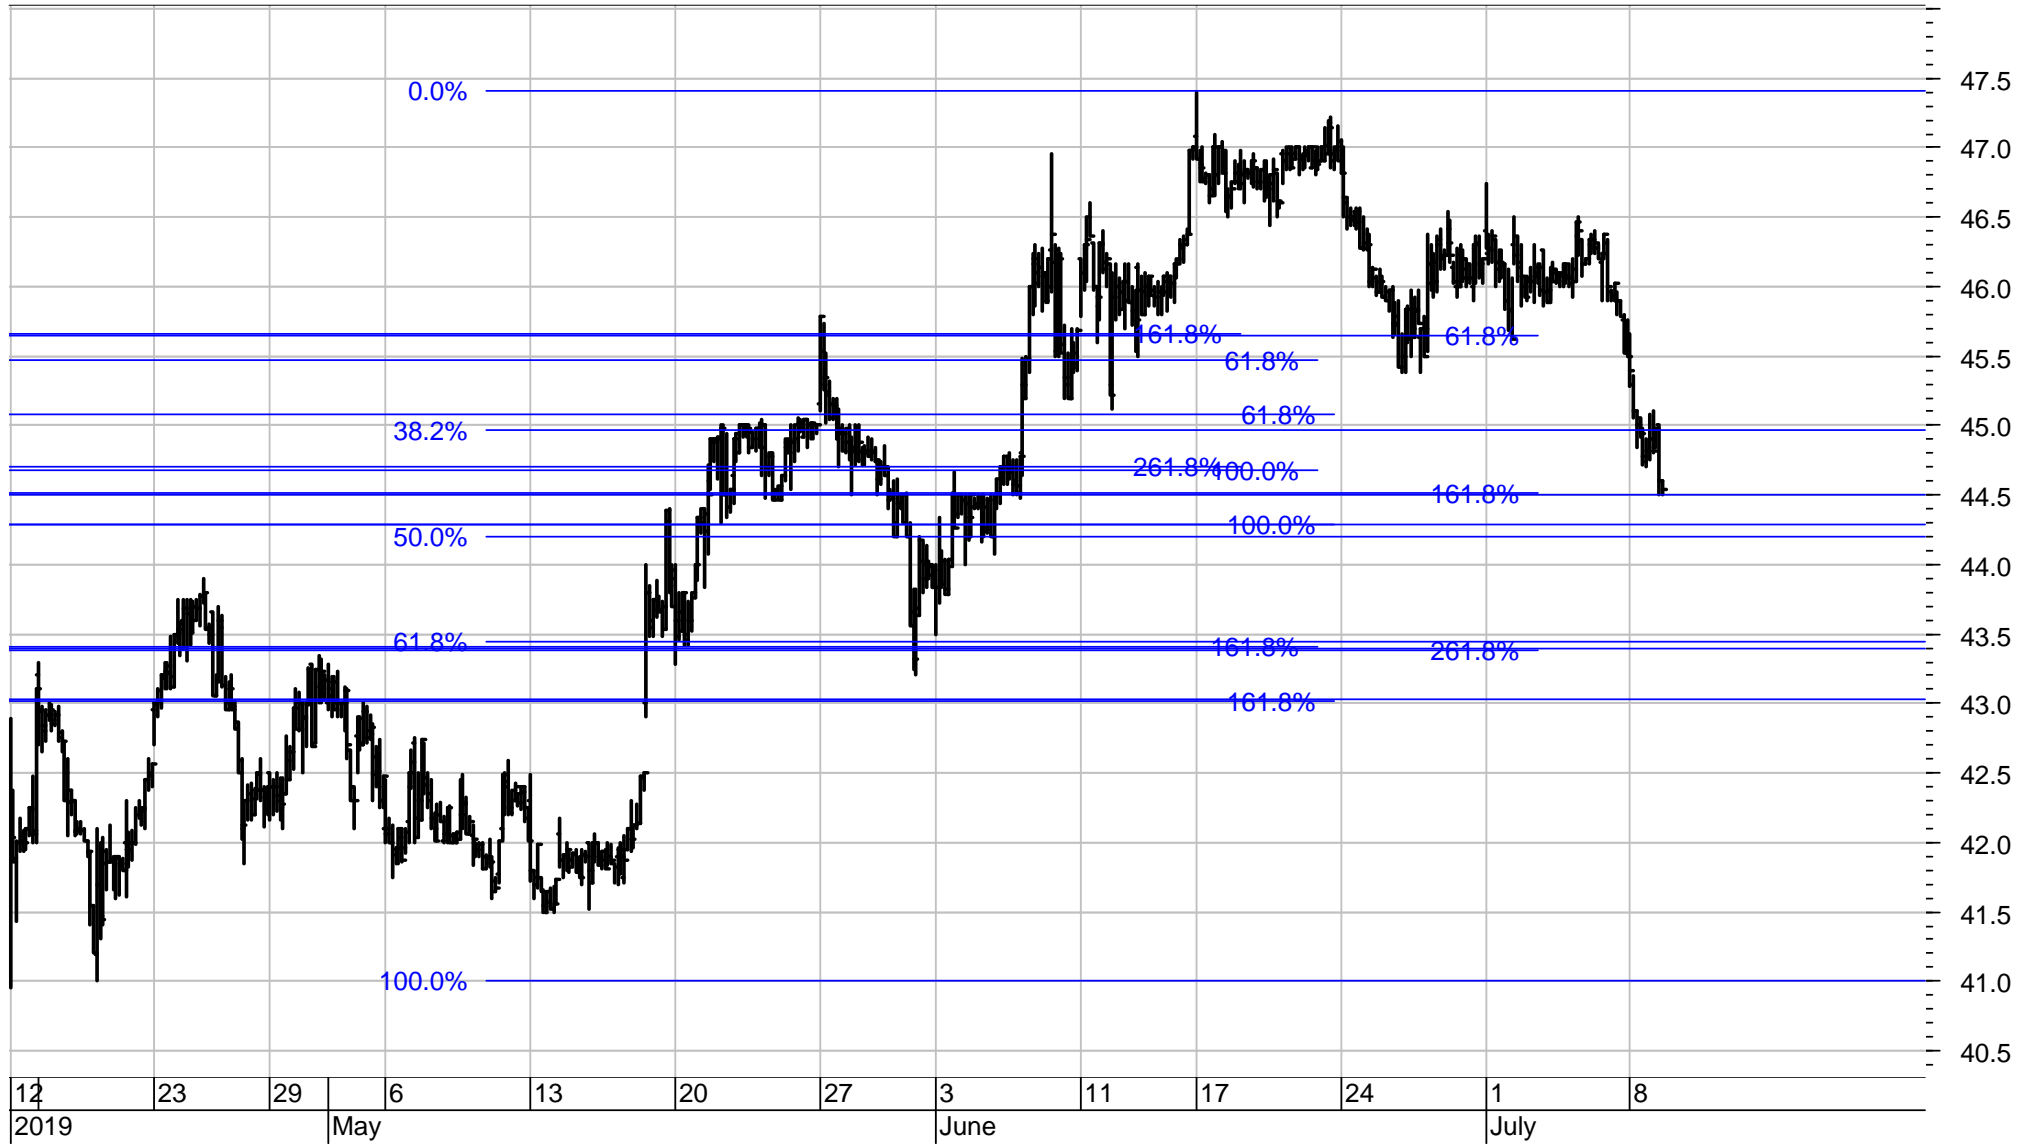

Roche entered a trading range with key resistance at 283 / 287 / 288 and support at 275, 270.50 and 263.

# STADLER RAIL

Stadler Rail entered a correction.  
A break of 44.50 / 44.20 would signal 43.50 / 43 or 41.

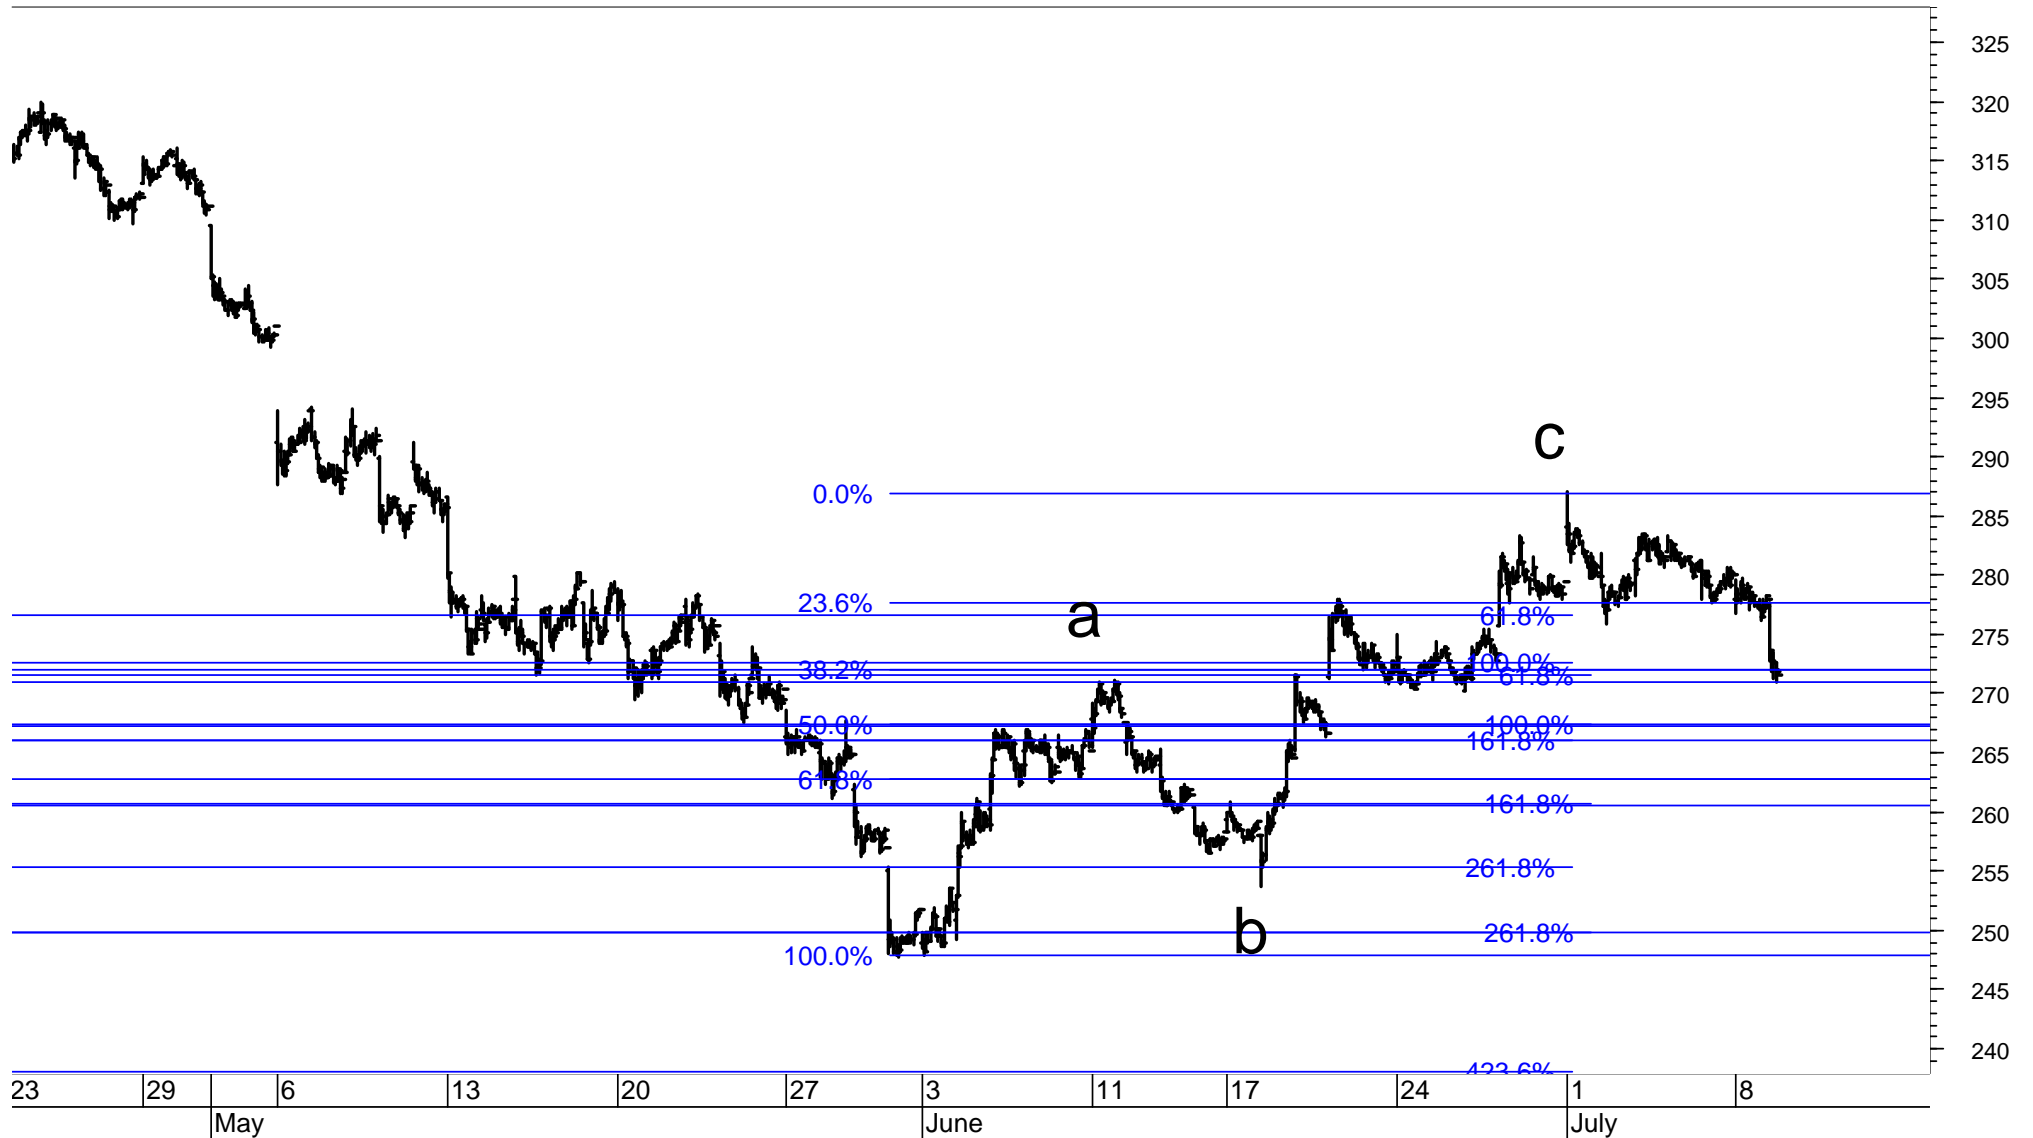

# SWATCH GROUP

Swatch was turned down by the resistance at 287.

Today, it is testing the support (stop) at 271. Next supports are 266, 260, 250 / 248.

The pattern from the low in May appears as a corrective a-b-c. This implies that UHR remains at risk of falling to another low below the May-low.

# BAYER

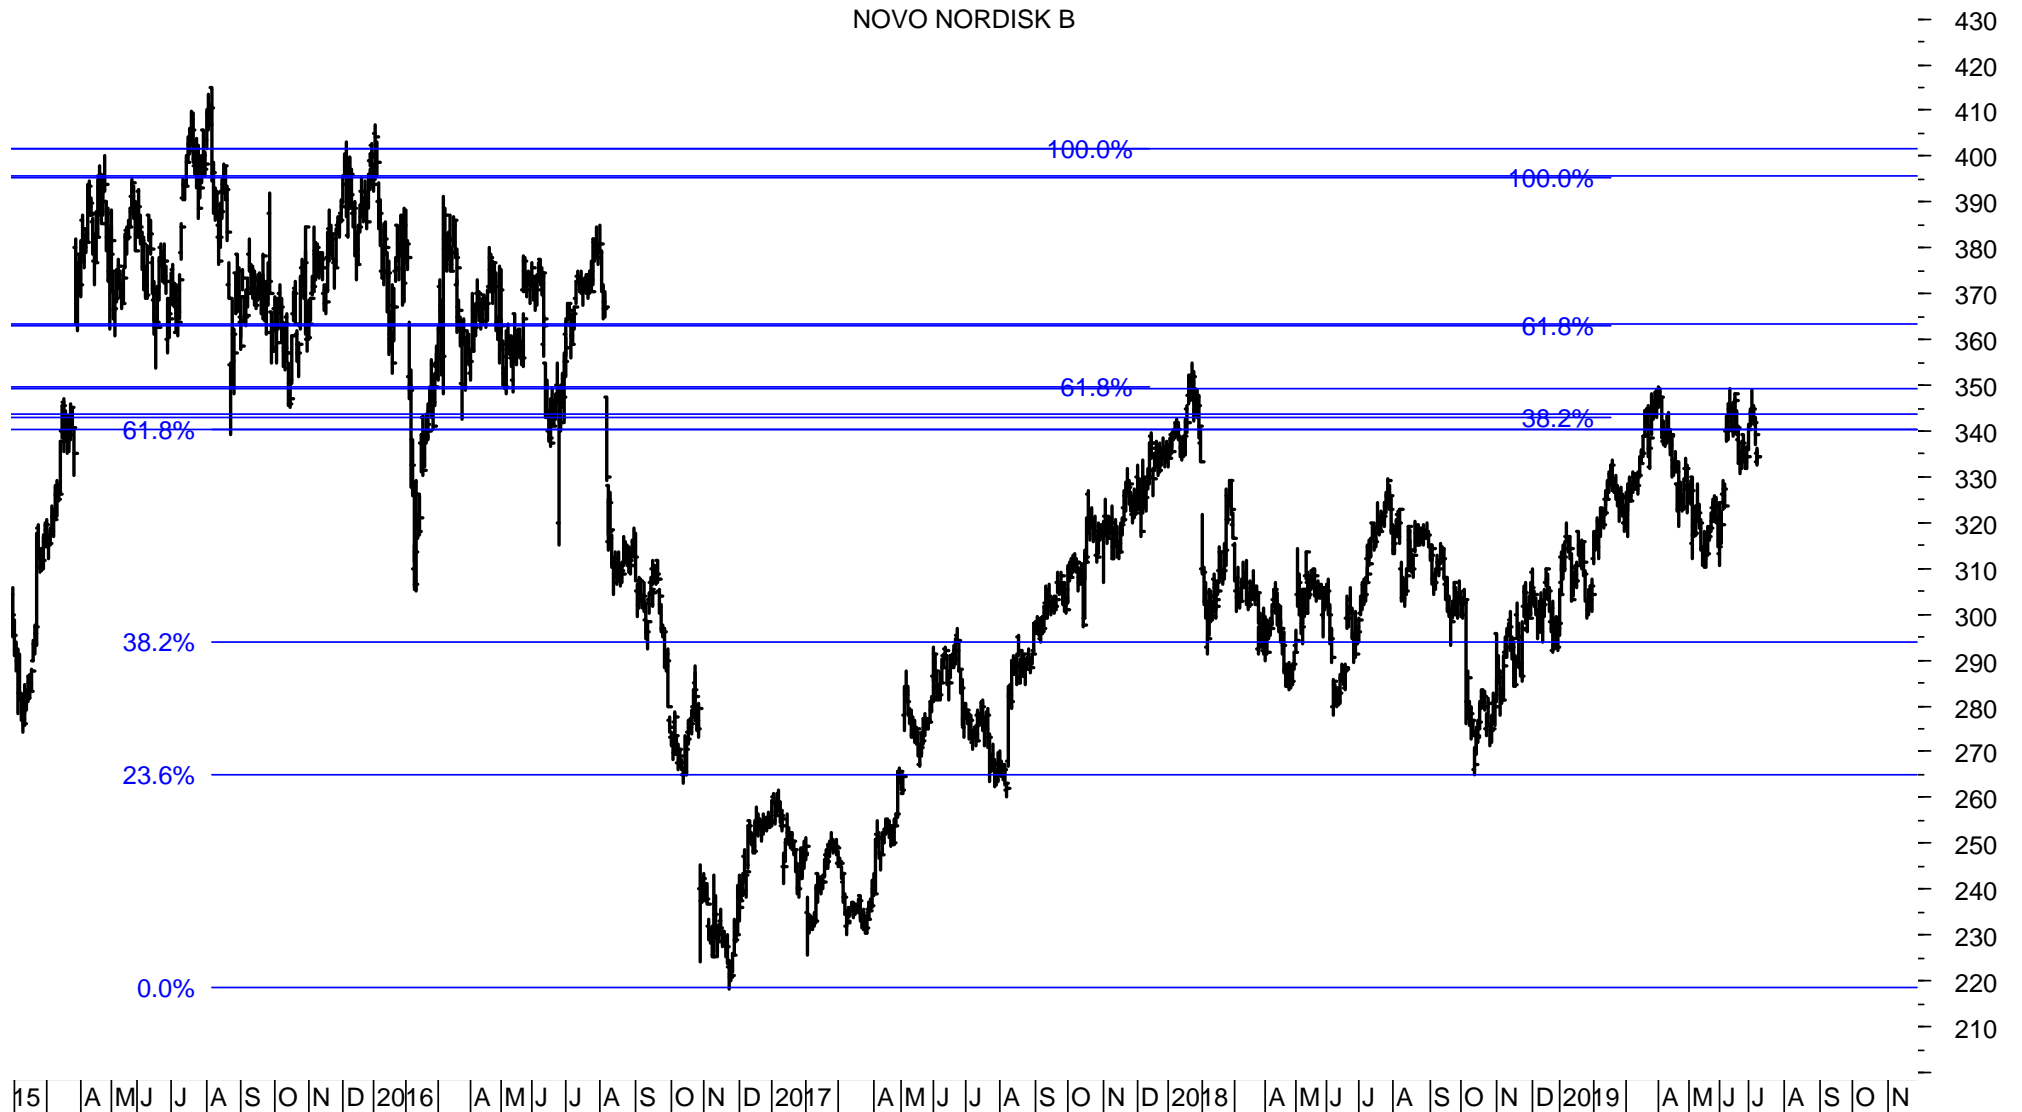

Bayer must rise above 62 to signal 65.50, a break of which will signal 73 and with this signal, also the long-term downtrend from 122 in 2017 could reverse.

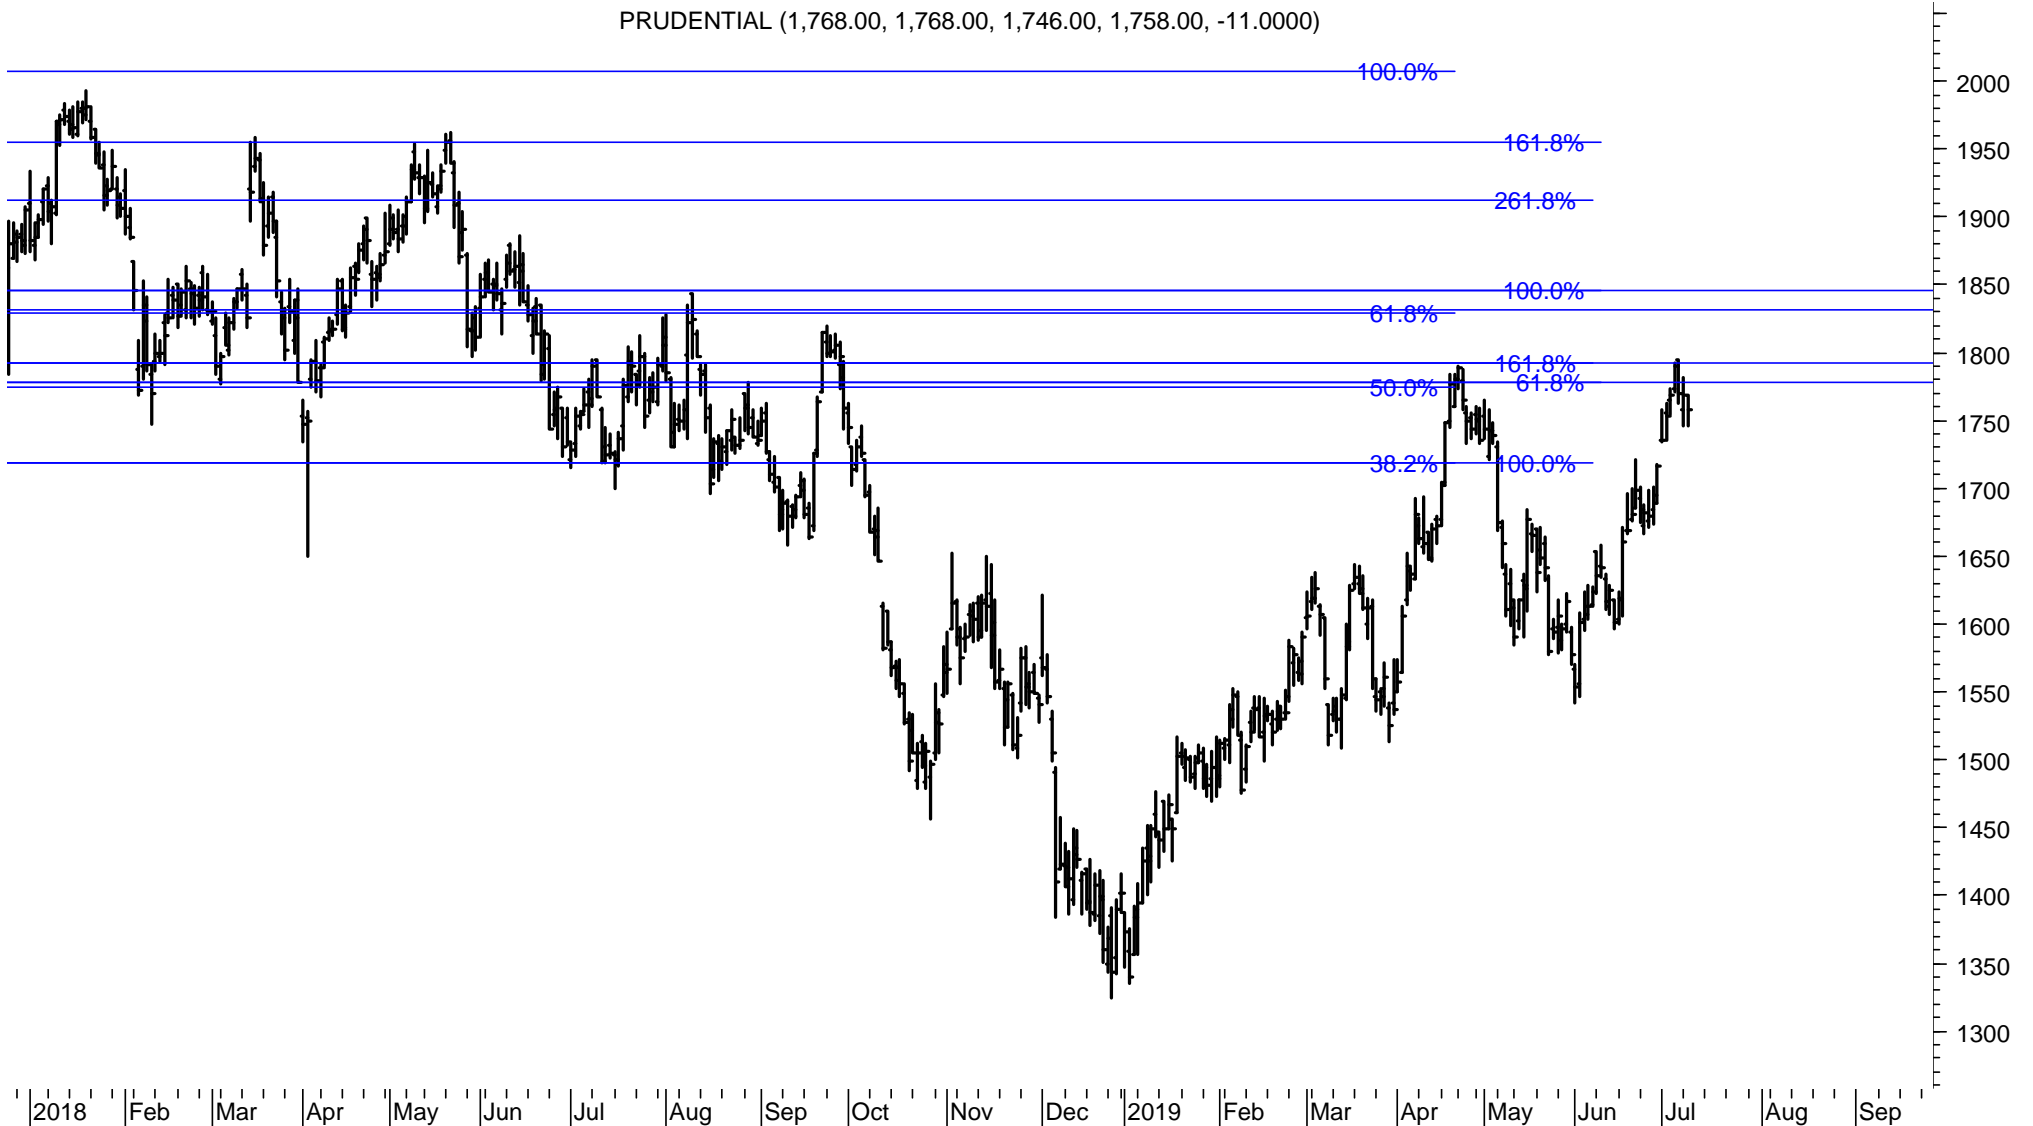

# NOVO NORDISK

Novo Nordisk rose to the resistance cluster 340 to 350.  
A break higher here will signal 365 and with the break of 365 will indicate further strength to 395 / 400 and possibly new highs thereafter.

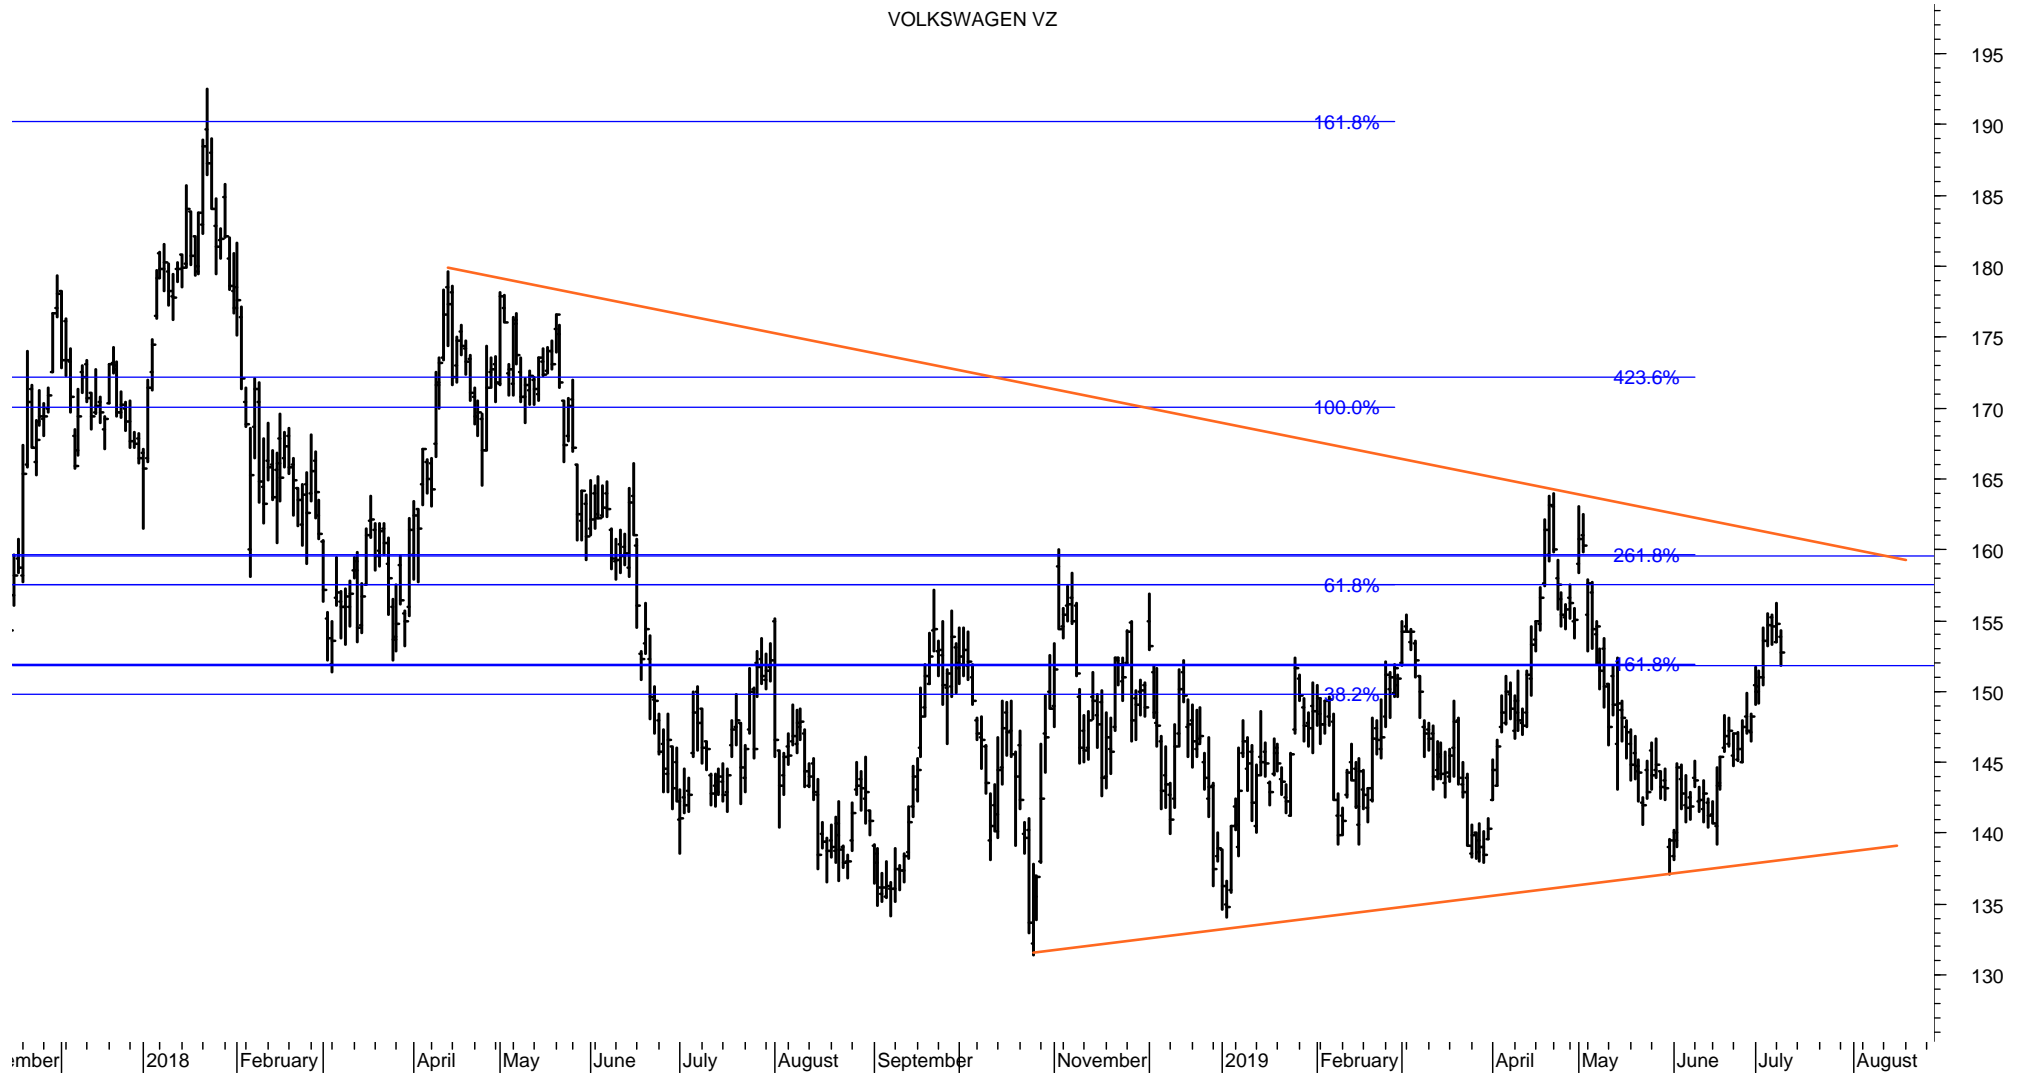

# PRUDENTIAL

Prudential is testing the resistance at 1780 / 1800 and 1830 / 1850. A break of these levels will signal a rise to the previous high from January 2018 at 2000. With the decline of 2018 and the rise of this year, Prudential could signal new all-time highs in the region of 2300.

# VOLKSWAGEN

Volkswagen must rise above 160 to signal a breakout of what could be a base-formation, which was formed from June 2018 to July 2019. A rise above 170 / 173 will add to the new long-term uptrend pressure.

# ALIBABA

Alibaba was turned down by the resistance around 174.  
If the present correction holds above 160 Alibaba could still reach the upper triangle line and resistance around 188 / 190.

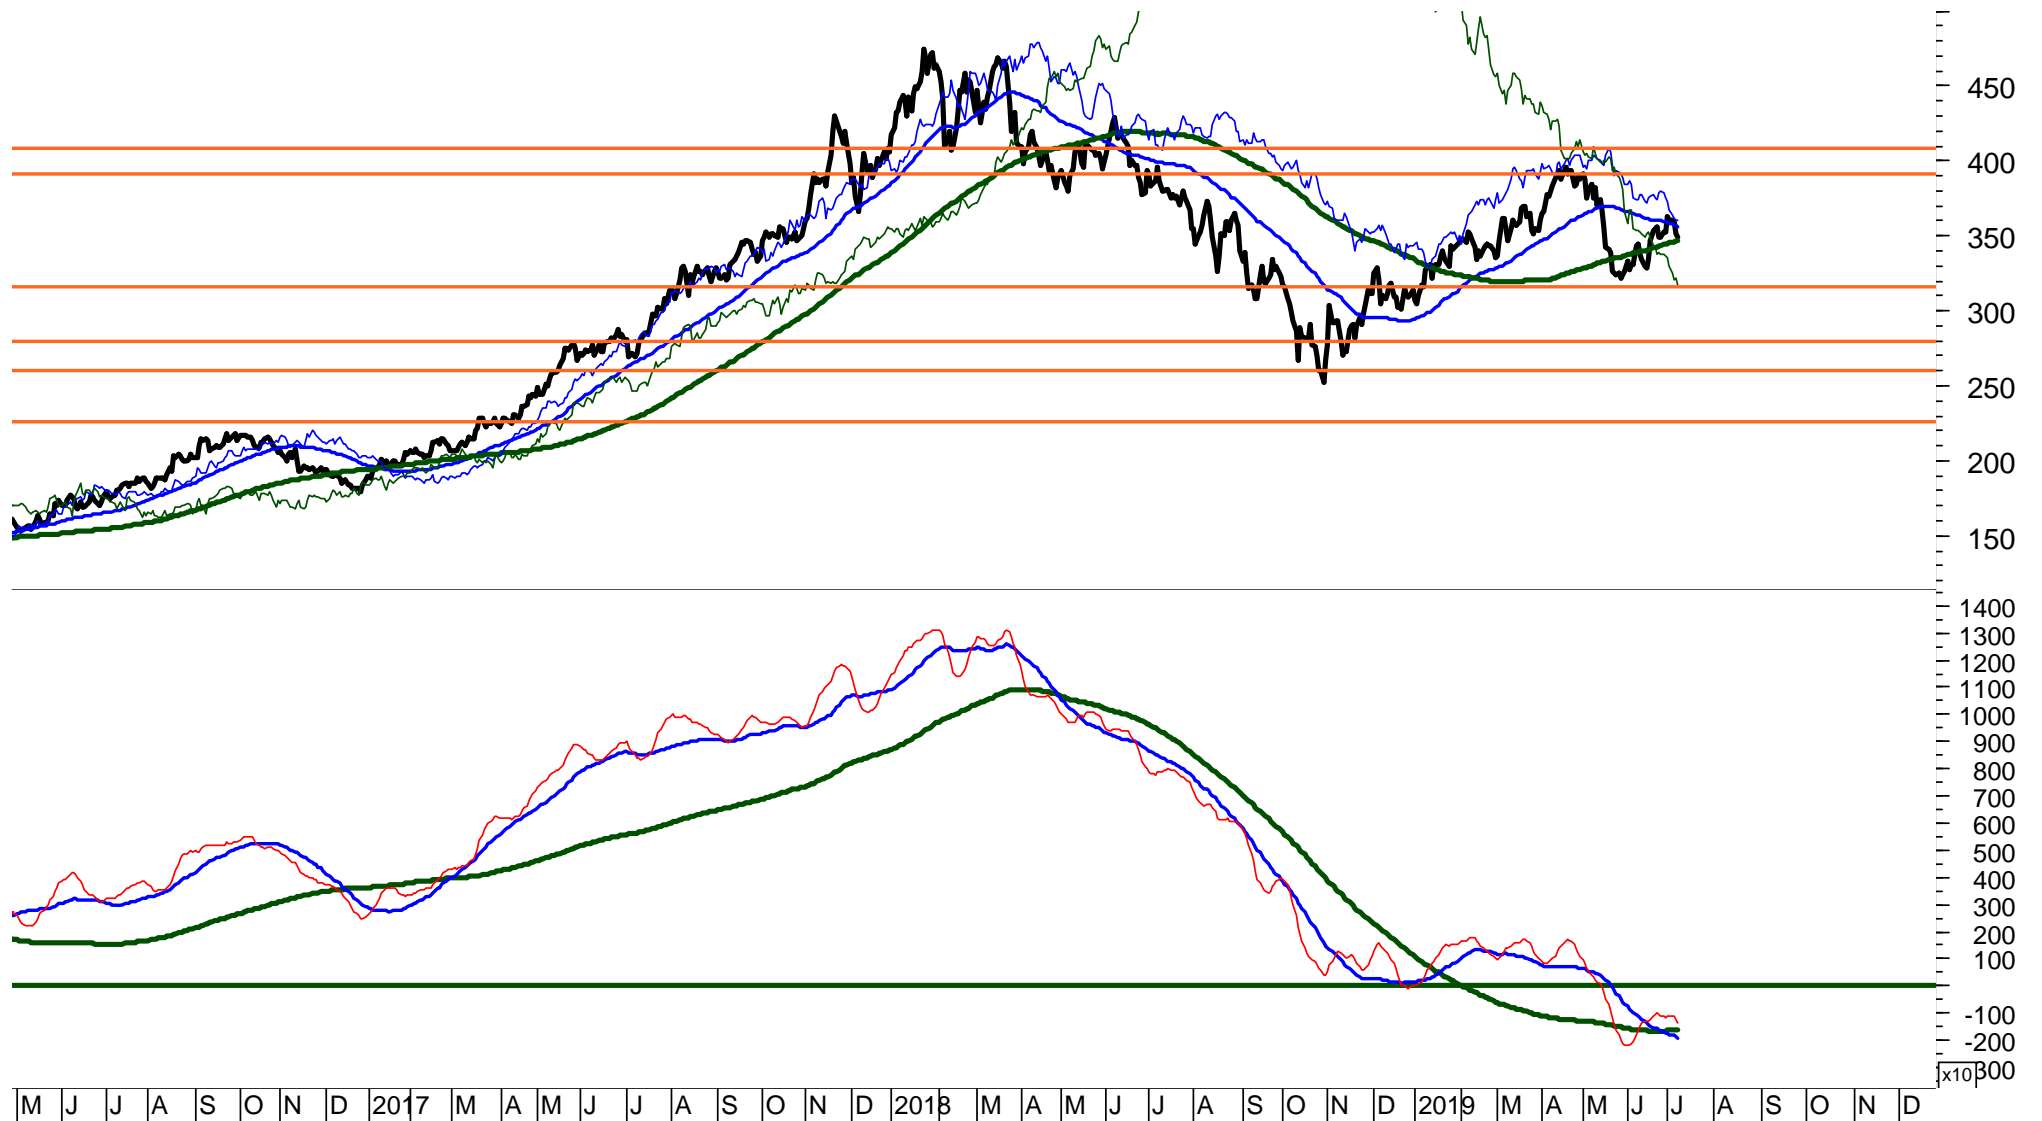

# SAMSUNG ELECTRONICS

Samsung remains in the trading range between 45000 / 47500 and 40500 / 39000.

# TENCENT

Tencent remains in the trading range between support at 315 and resistance at 390 / 410. A failure to hold above 315 will trigger a sell signal with next supports at 280, 260 and 225.

# TOYOTA

Toyota will trigger a buy signal if 7000 is broken.

Next resistance is 7170, 7320, 7550.

As long as 7000 is not broken, Toyota could be completing a Triangle with long-term support at 6400.
