Companies marked blue are constituent stocks of the Swiss Market Index SMI

CS GROUP – 240-minute chart

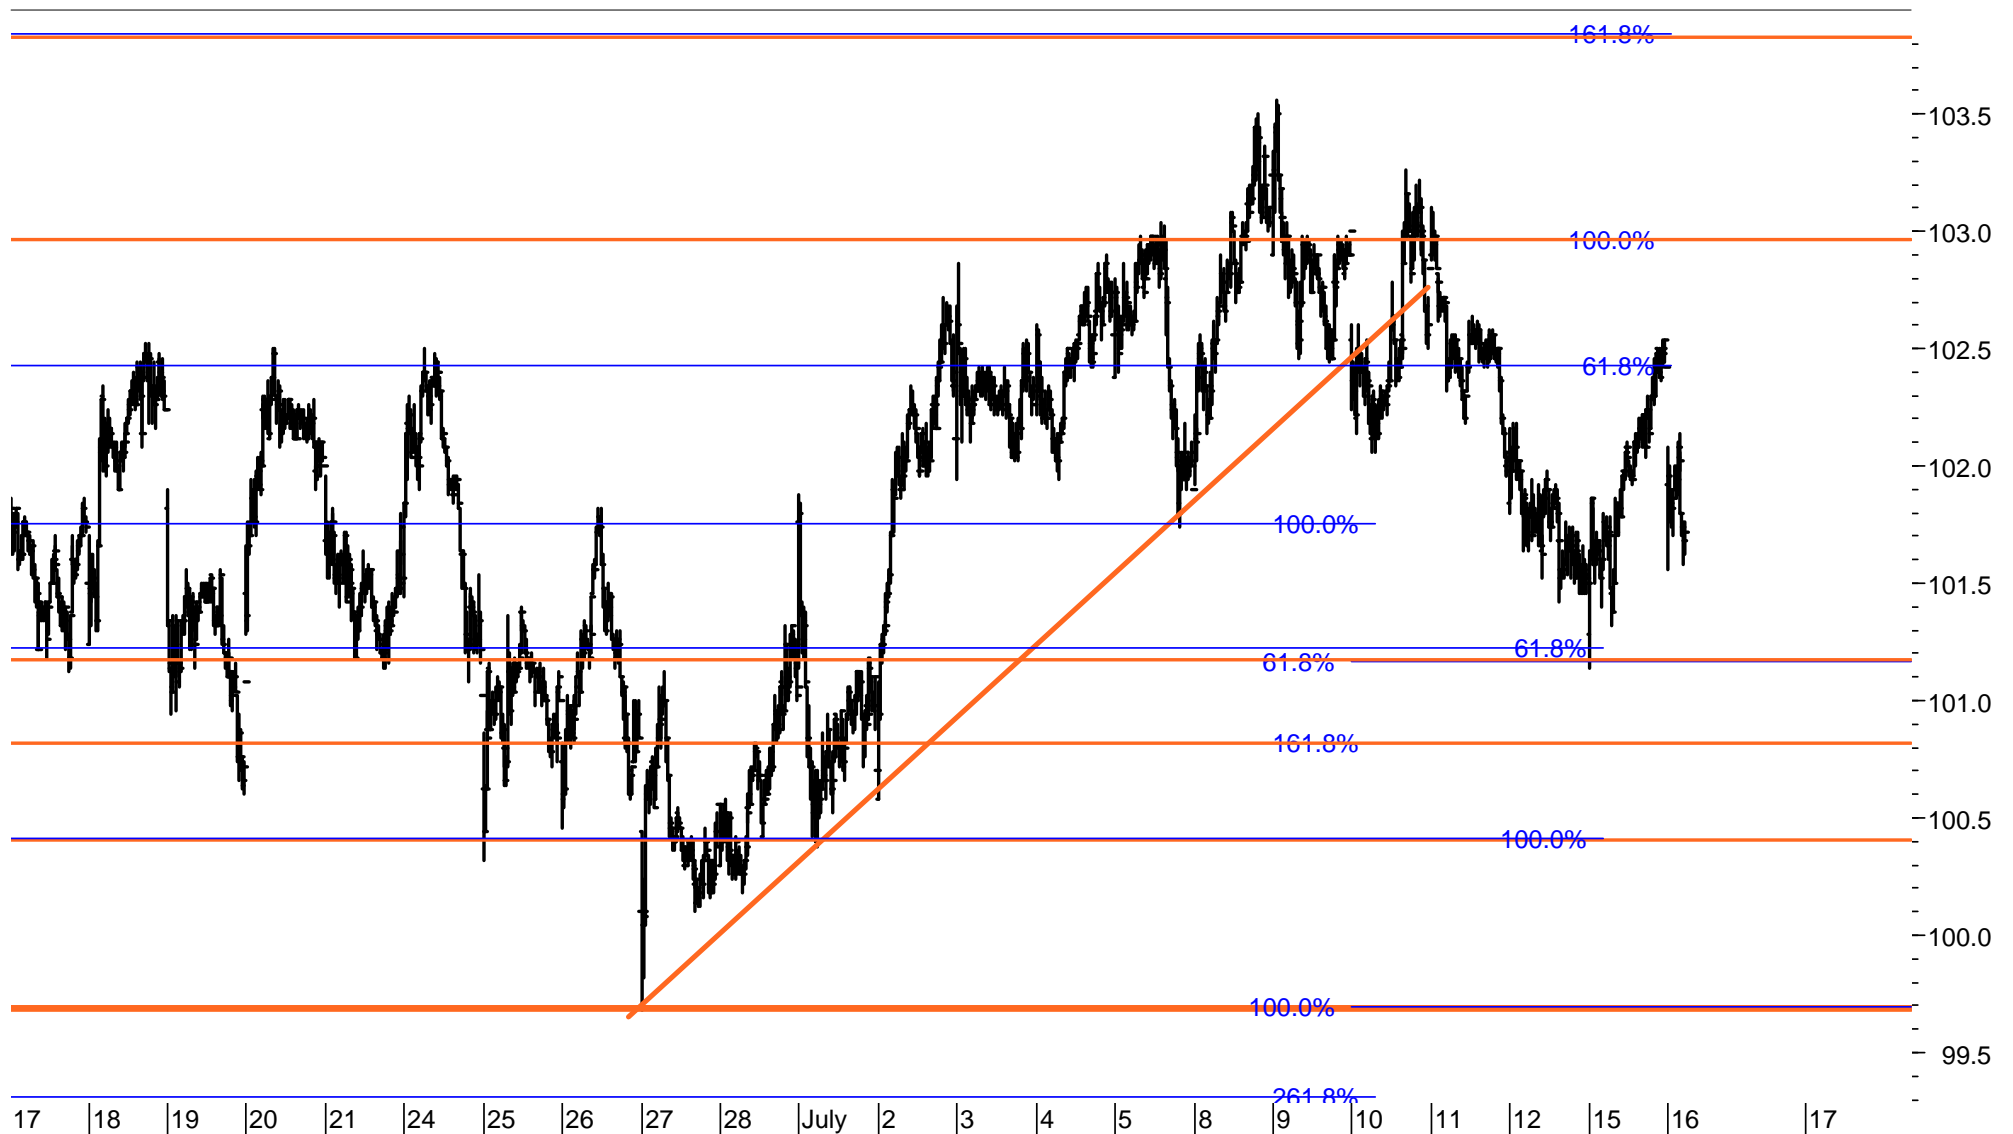

CSG is testing the resistance at 12.40 / 12.60, a break of which could signal 13.50.
A break of 13.50 is required to signal a medium-term turnaround and to activate 15.

NESTLE – 10-minute chart

Last week I stated: “The most recent breakout above the June highs will signal a FAILURE if the present correction breaks 102 and 101.10.”

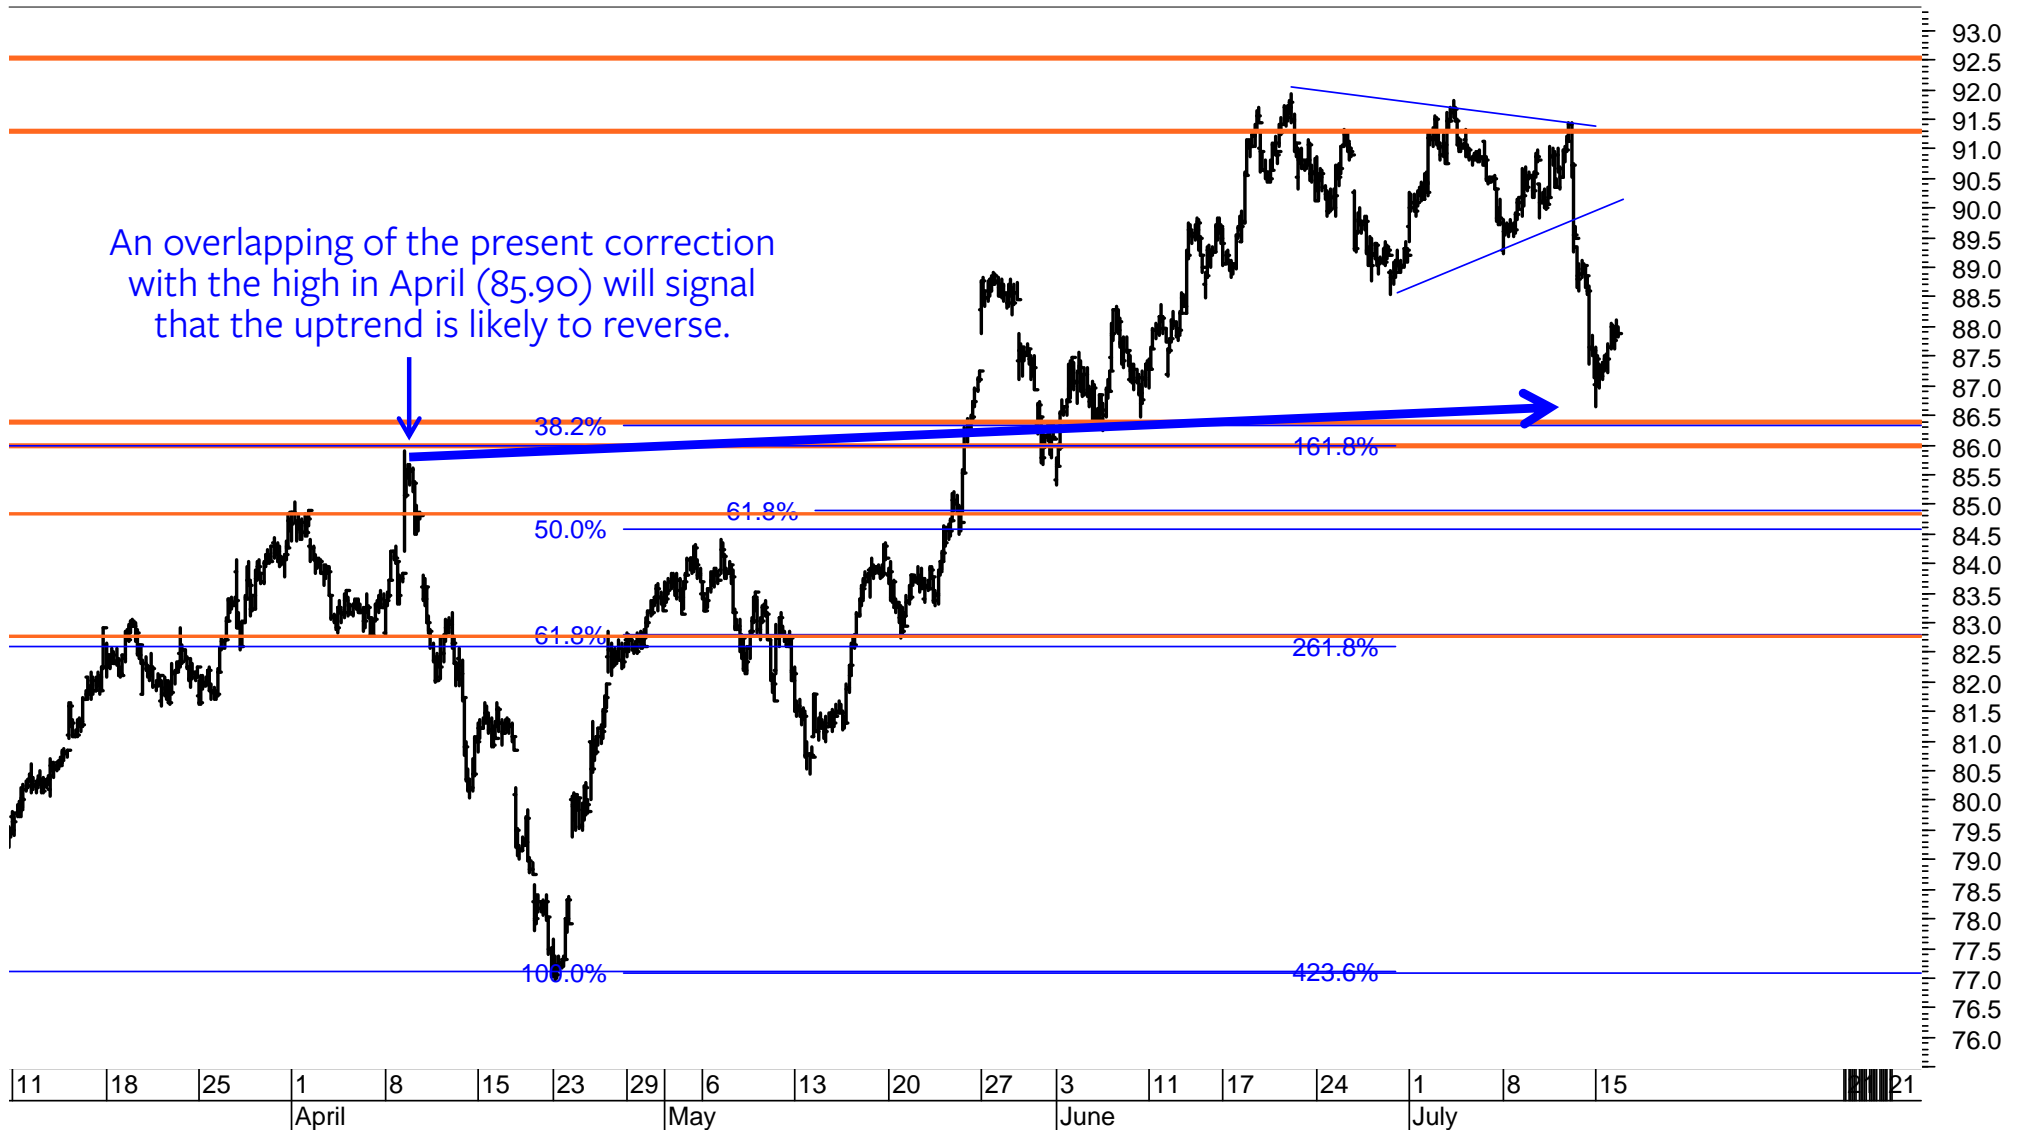

Last week, Nestlé corrected to 101.10 and rebounded to 102.50. A break of the supports at 101.10, 100.80, 100.40 and 99.70 would signal a medium-term downturn with supports at 97.50 and 94.

NOVARTIS – hourly chart

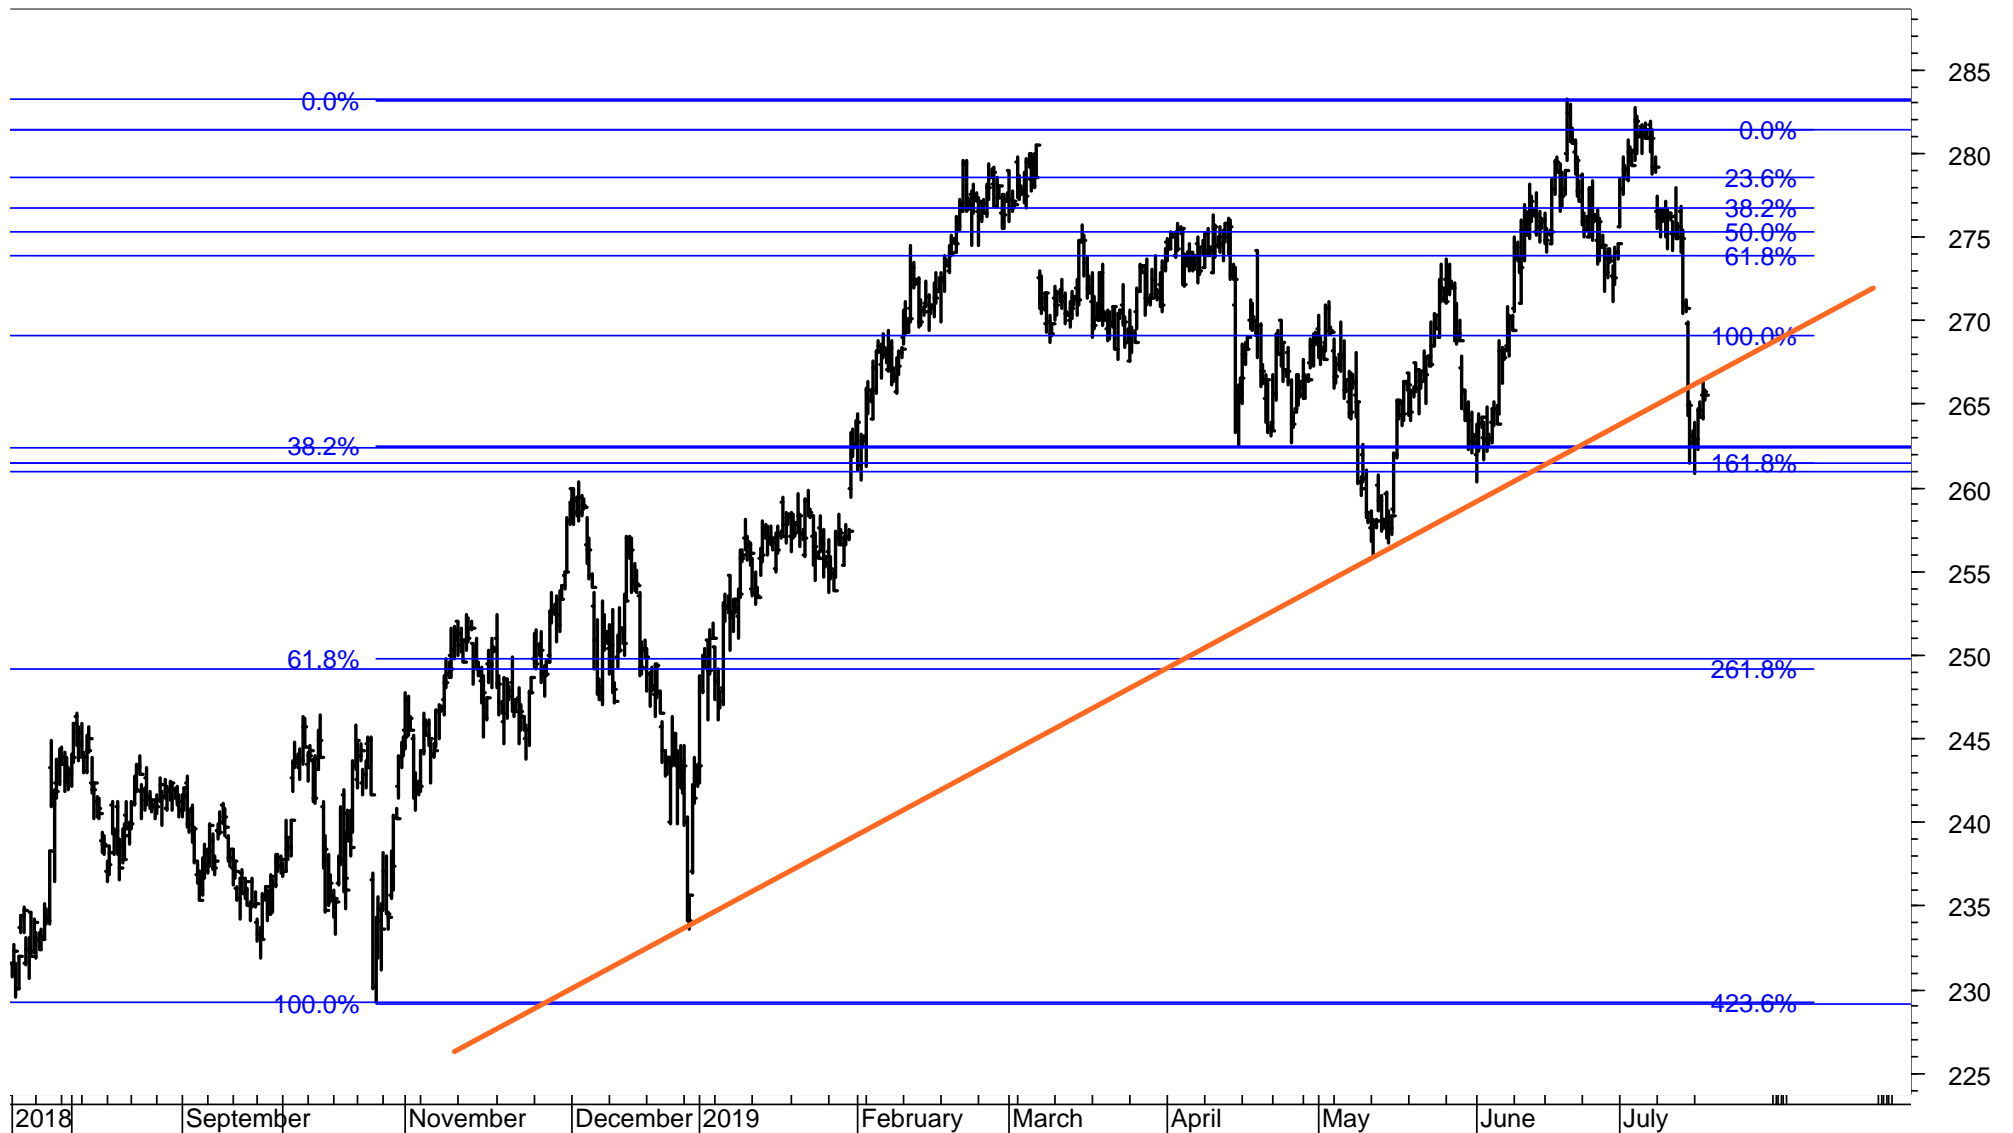

Novartis has left the trading range to the downside. It broke the support at 88.30 and fell towards the next support, which I had located at 86.40.

Clearly, a break of 86 / 84.50 will signal 82.50, a break of which is likely to turn the medium-term trend down. I will sell my present position if 84.50 is broken.

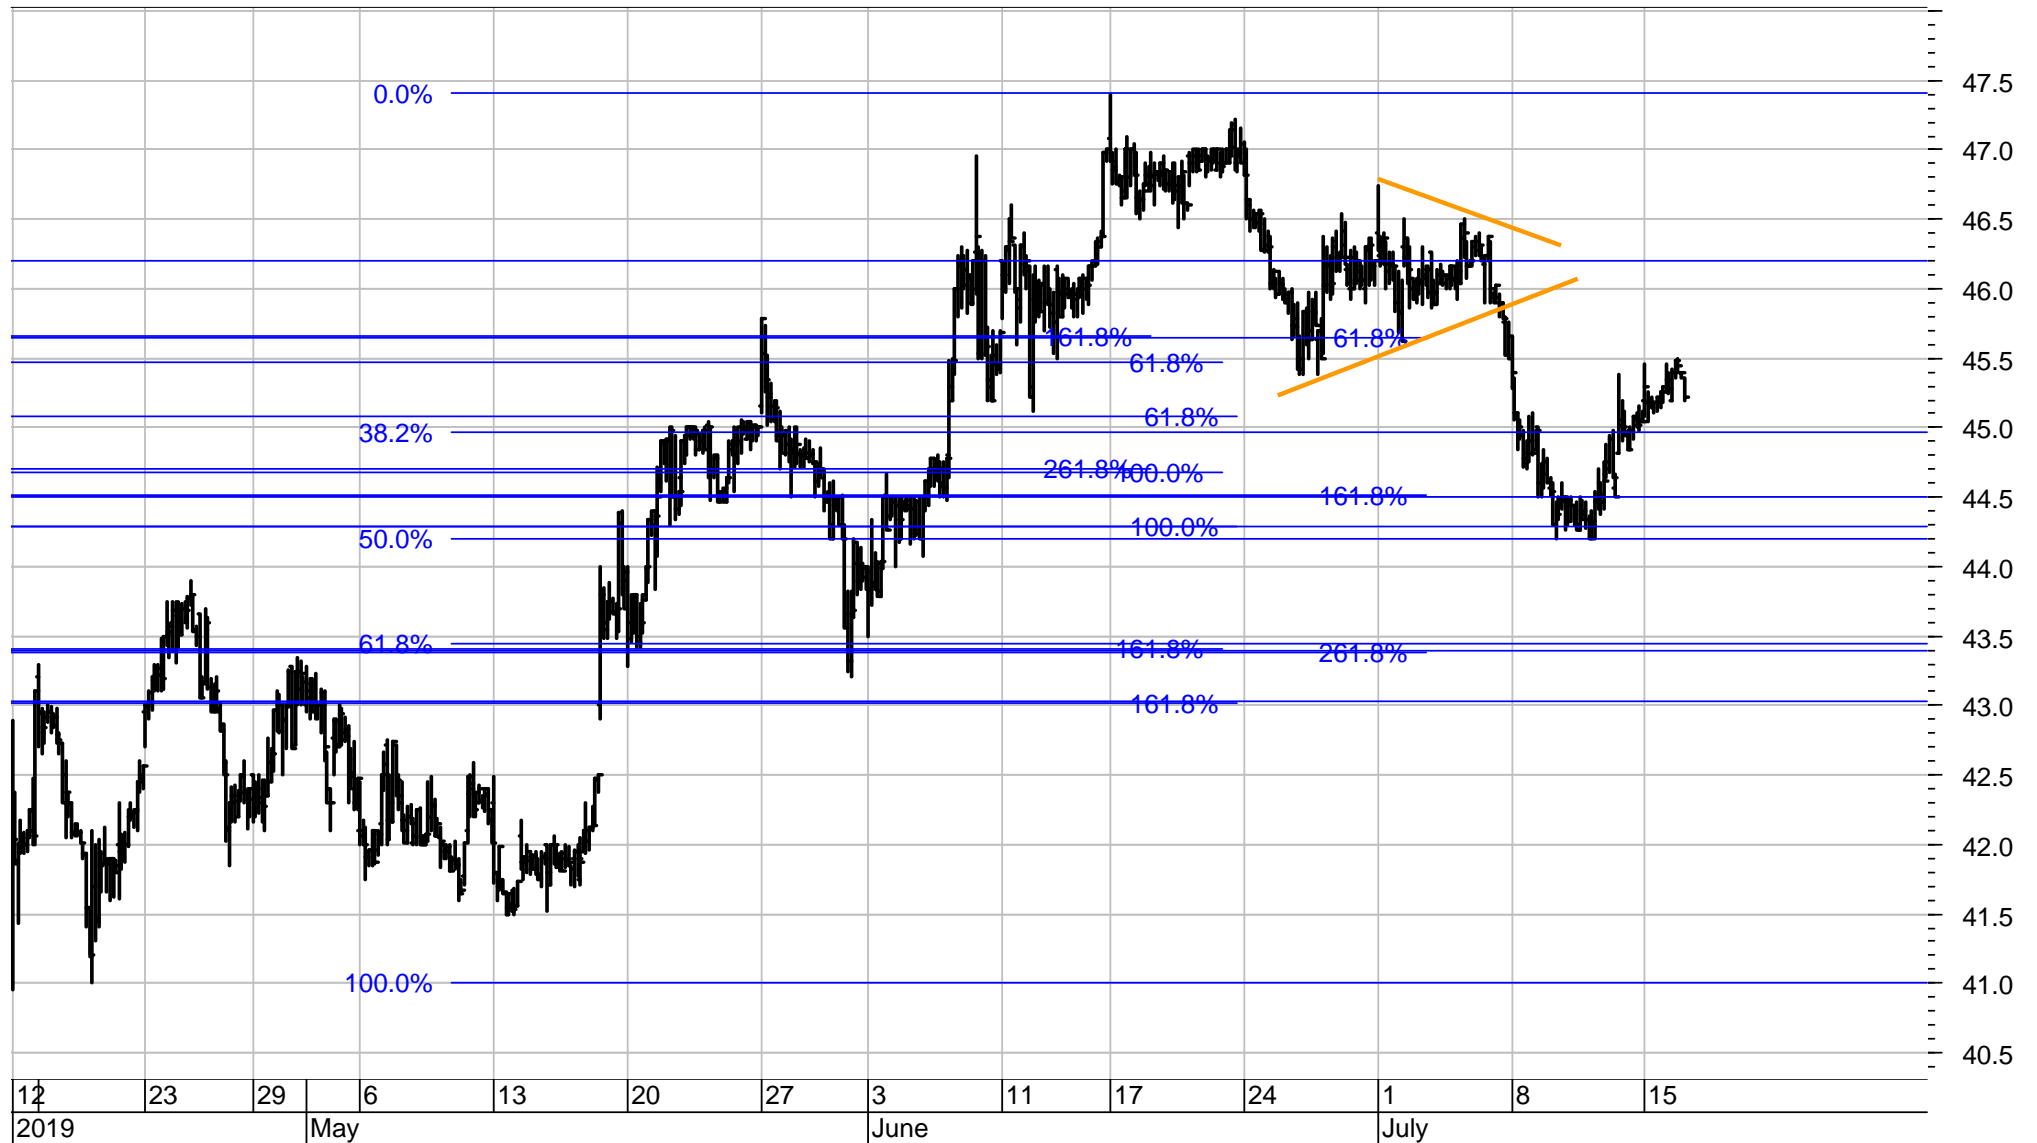

ROCHE GS – 240-minute chart

I will sell the present position if the support cluster above 260 is broken.
Next supports are 250 / 248 and 230.

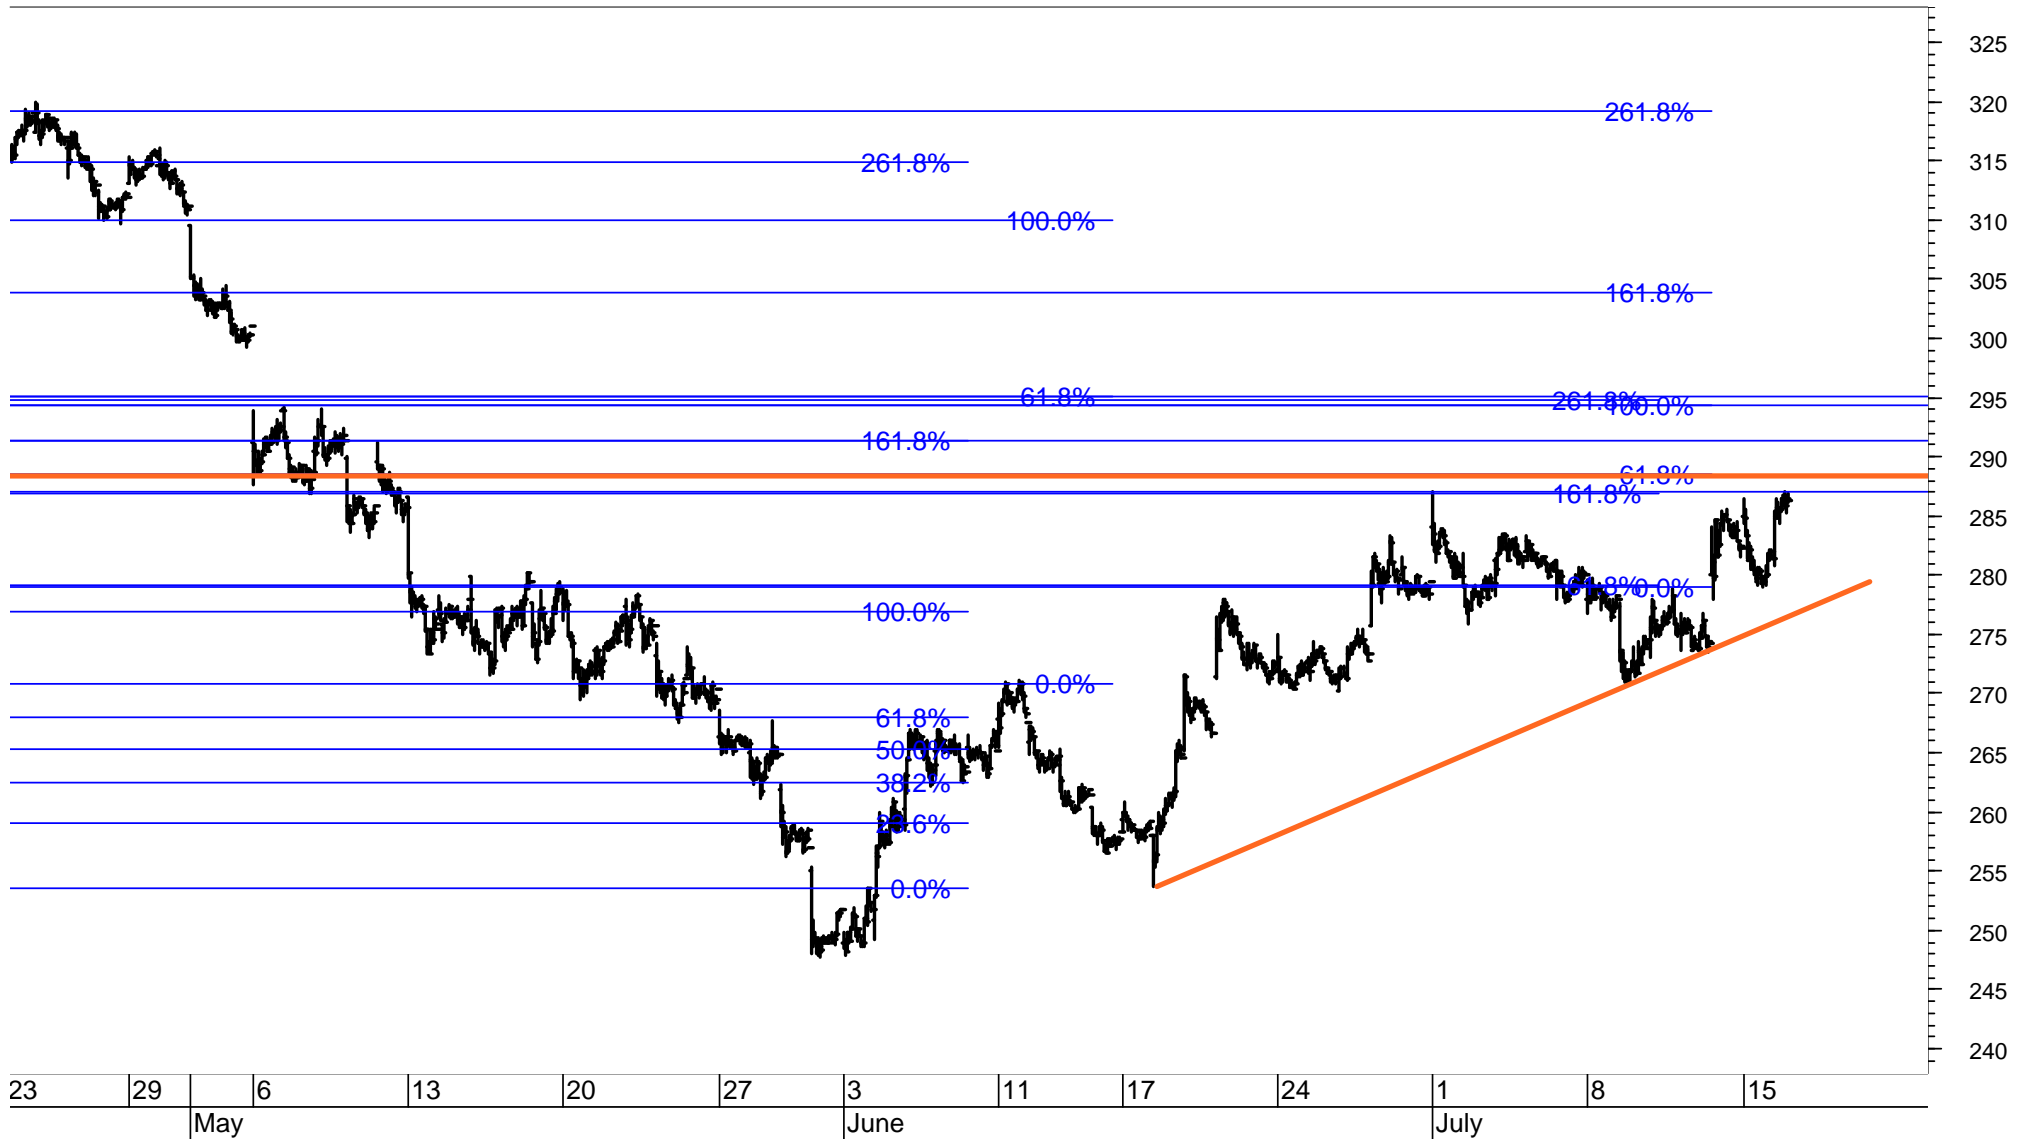

STADLER RAIL – hourly chart

Stadler Rail is bouncing off the major support range 44.50 / 44.20.
 A break of 44.20 / 44 will trigger a sell signal with supports at 43.50 / 43 or 41.

SWATCH GROUP – 30-minute chart

Swatch managed to rebound off the support at 271. It is likely to succeed in forming a turnaround if the many resistance levels between 287 and 296 can be broken. I would add to the position if 289 is broken.

I recommended AENA on 23.1.2019 at 145.45. The price is up 20%. I will TAKE PROFITS if 170 is broken.

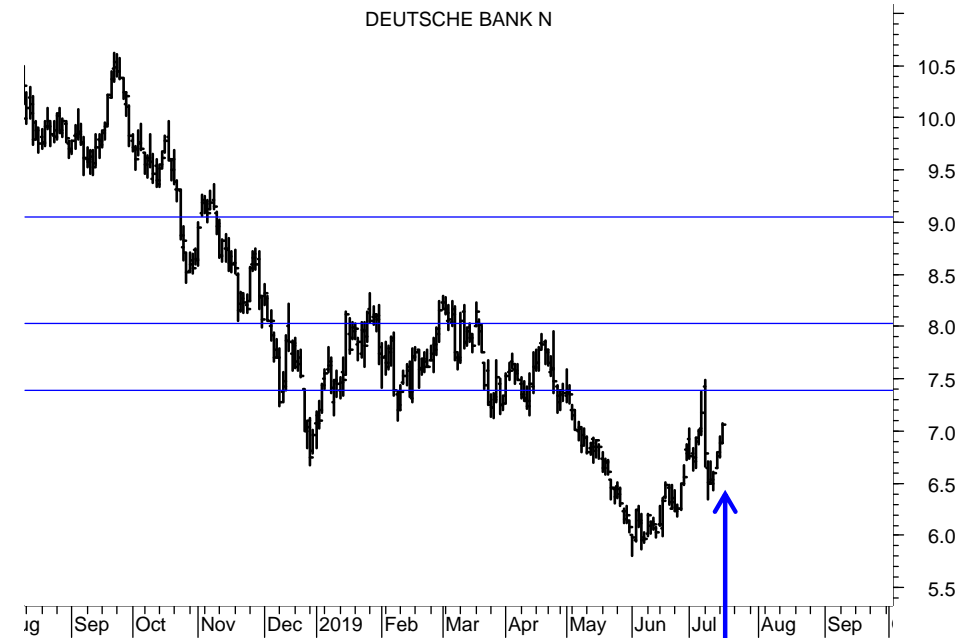

BAYER must rise above 62 to signal 65.50, a break of which will signal 73. With the break of 73 also the long-term downtrend from 122 in 2017 could reverse. I would BUY with the break of 62 and 66.

I would BUY DEUTSCHE BANK. It is likely to break 7.40. This would activate the next target at 8 and 9.

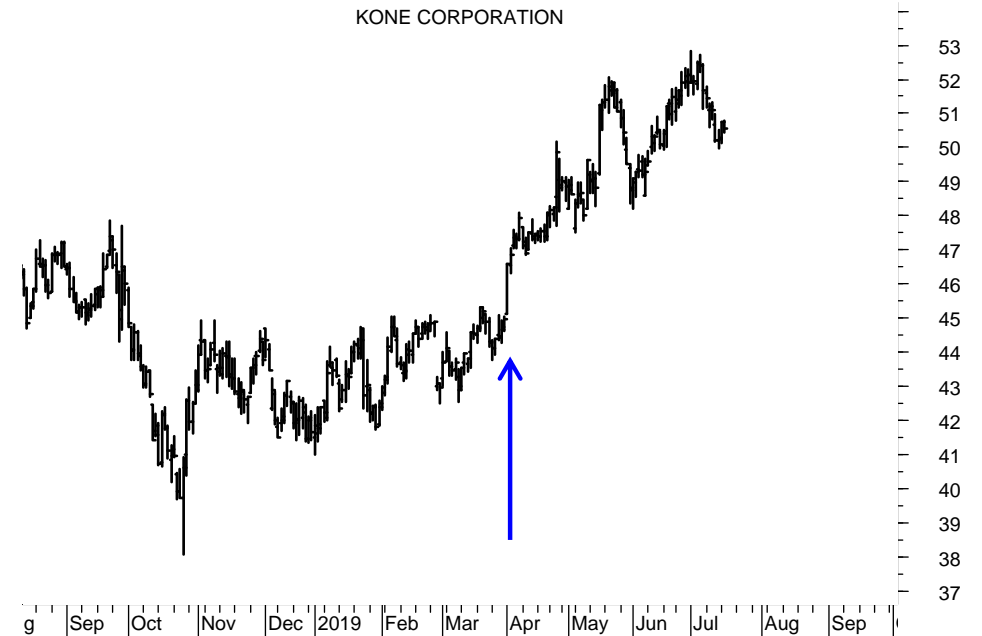

I recommended UNILEVER on 23.4.2019. The price is up 12%. The uptrend is likely to remain in place, at least for one more higher-high.

ALIBABA

Alibaba is trading at the resistance at 174.
My forecast remains unchanged.
Alibaba is likely to remain in the triangle for longer.

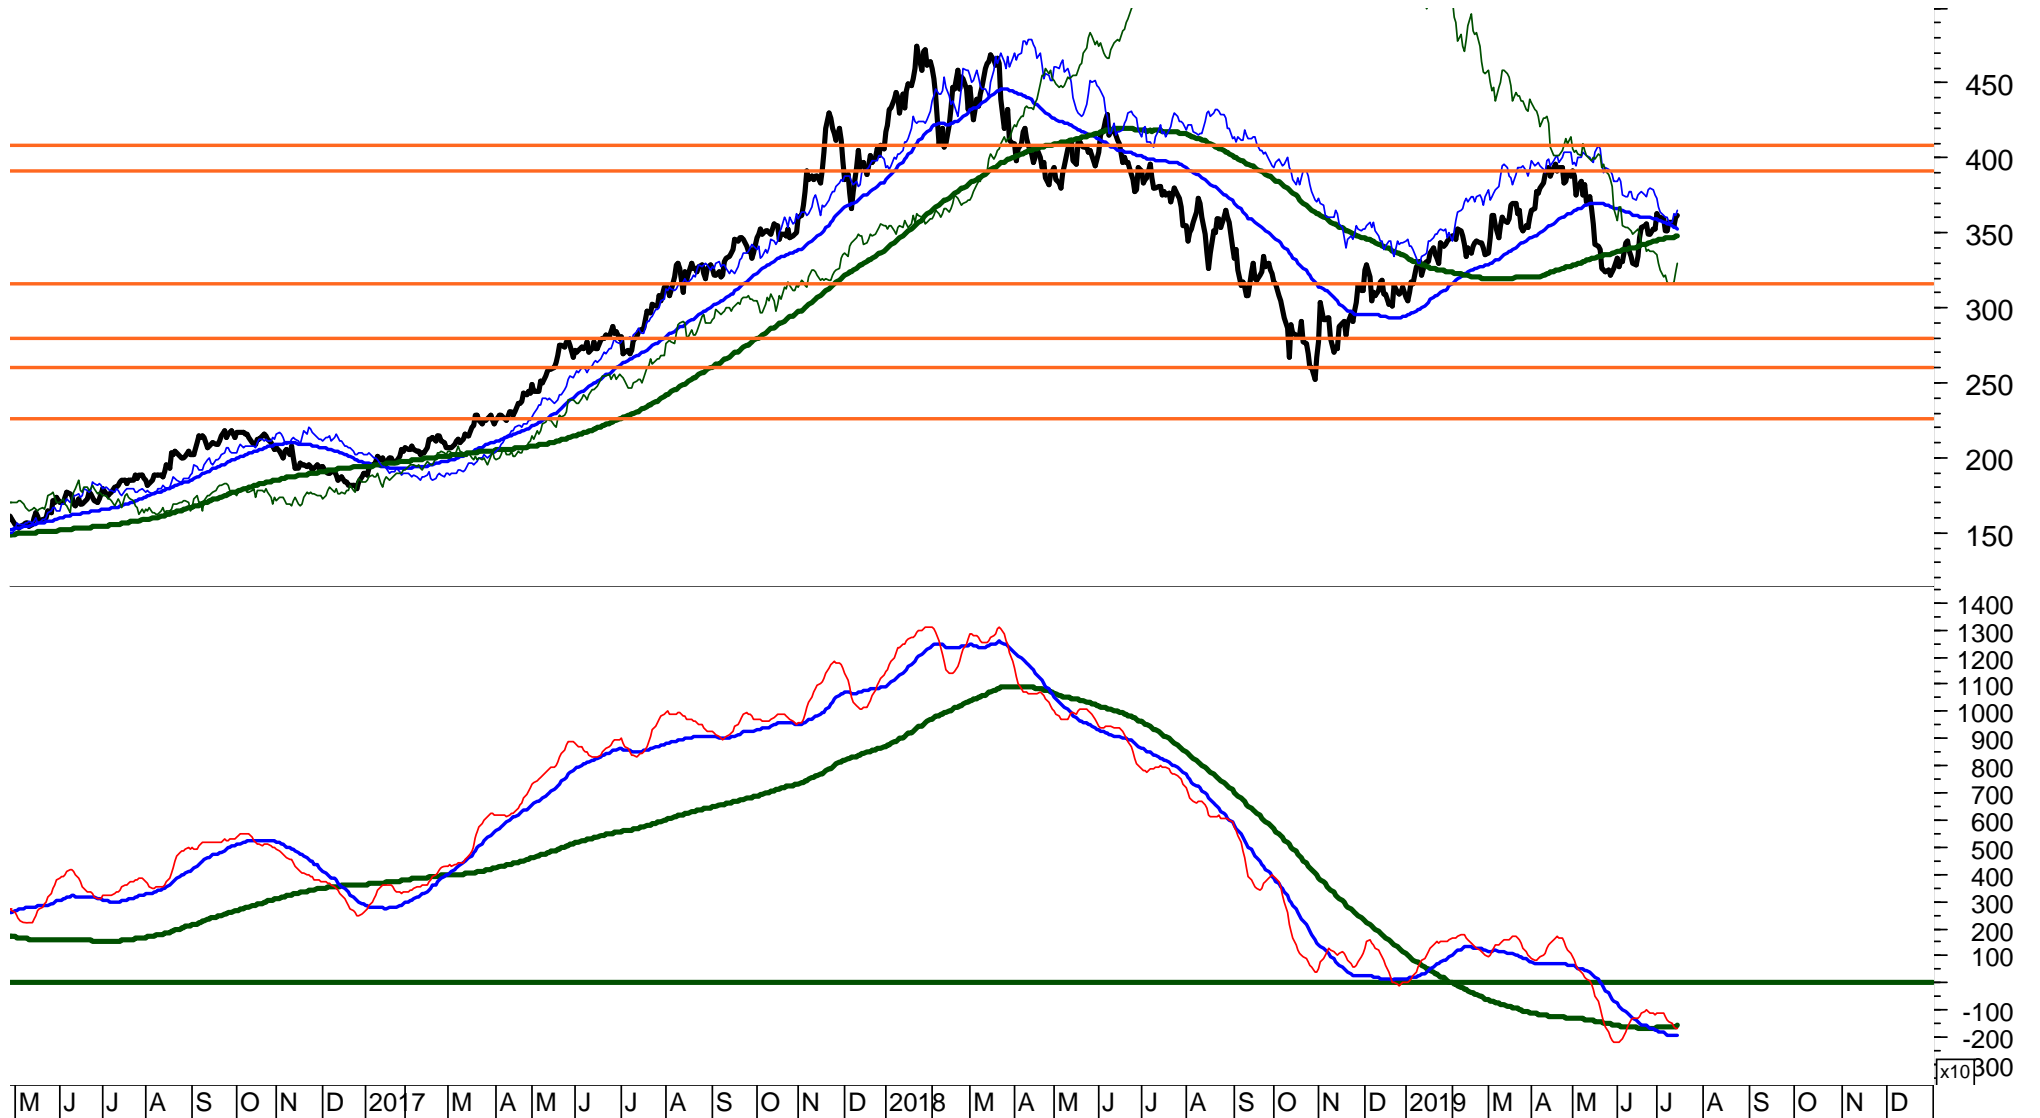

SAMSUNG ELECTRONICS

Samsung remains in the trading range between 45000 / 47500 and 40500 / 39000.
A break of 48000 would signal 52000 or 58000.

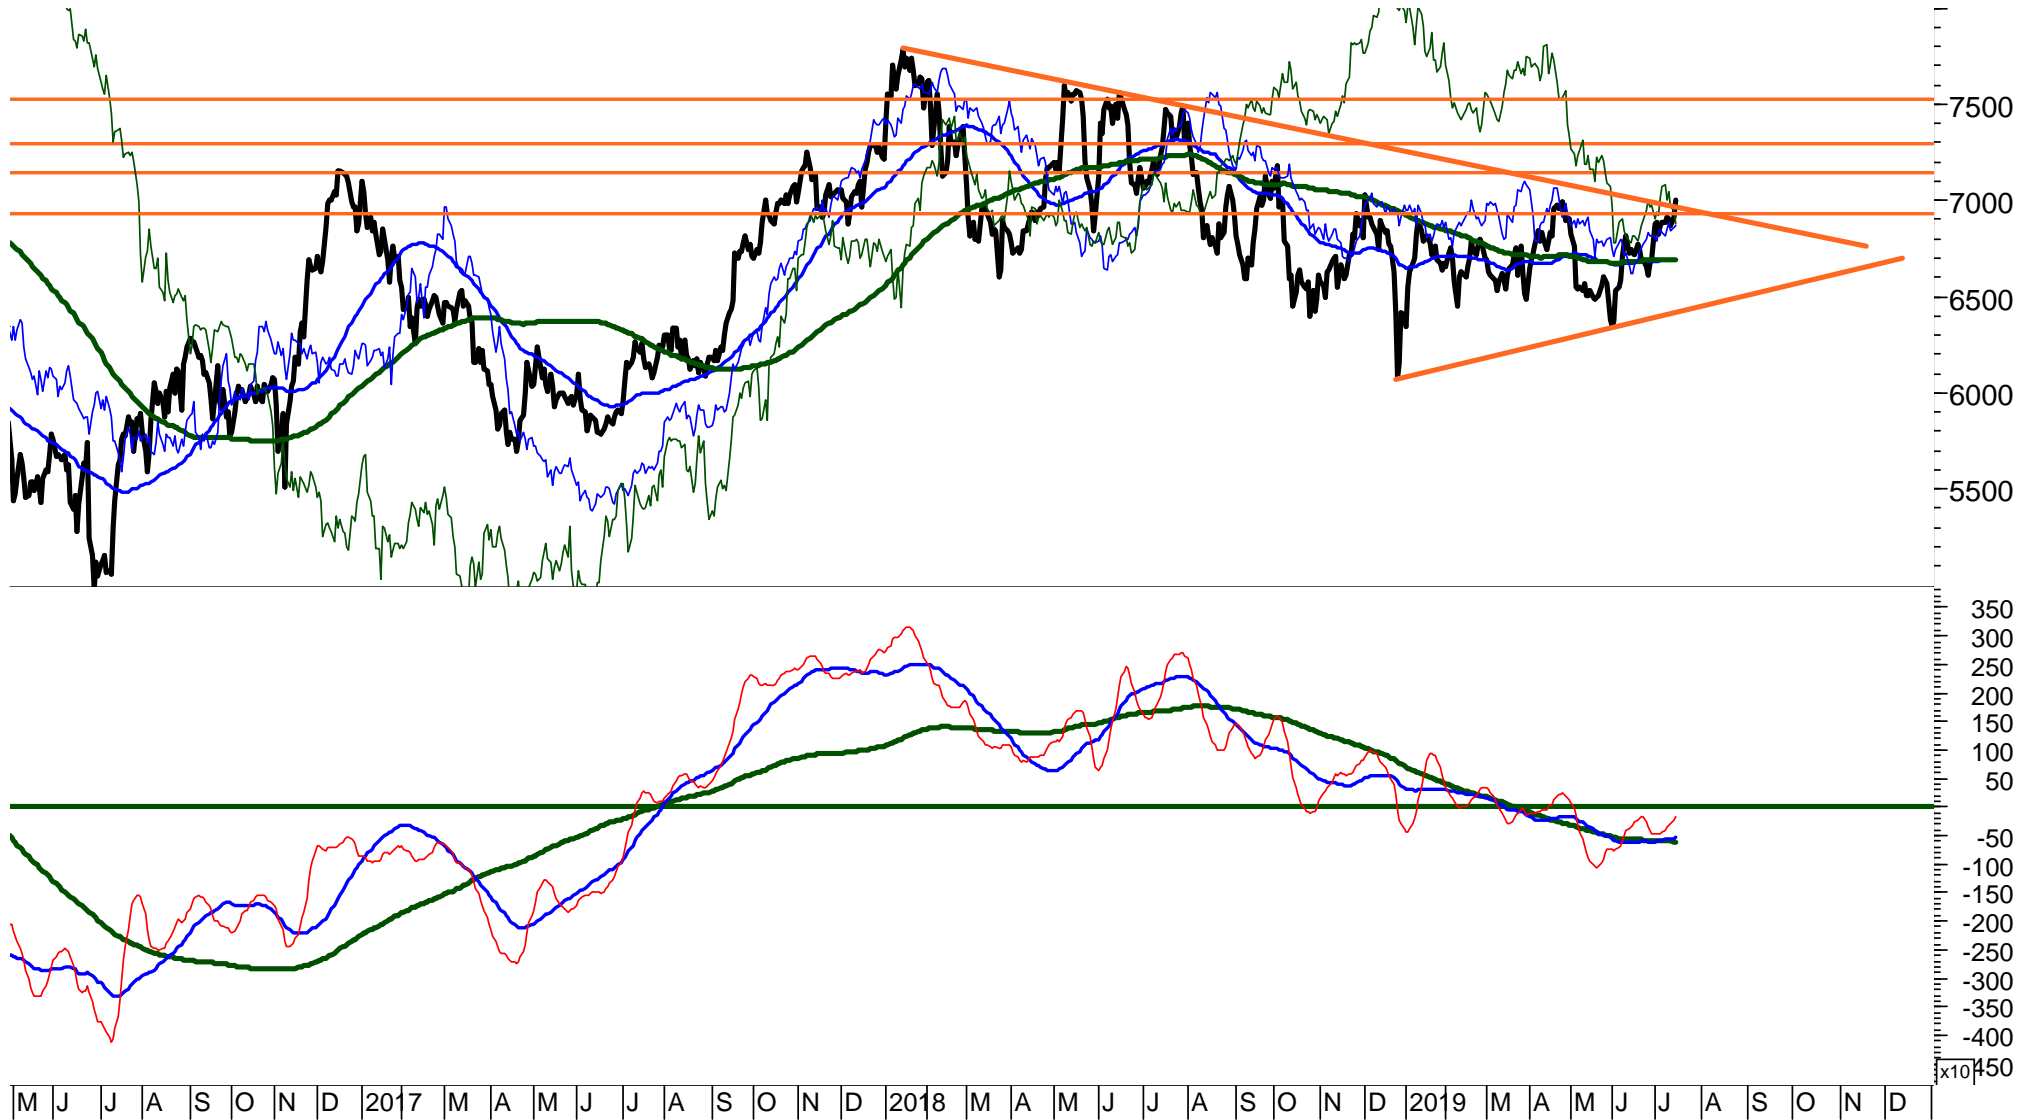

TENCENT

Tencent remains in the trading range between support at 315 and resistance at 390 / 410. A failure to hold above 315 will trigger a sell signal with next supports at 280, 260 and 225.

TOYOTA

Toyota is breaking 7000 and activating the next resistance at 7170, 7320 or 7550.
